Report from Parliament Hill

The honourable member for Assiniboia, Mr. Haugen argues, C.C.F. leader, some of the irresponsible remarks and suggestions that he had been making throughout the gested to them that if they felt that way they could lay down their pencil and go out west

that they would starve to death in a year.

country and within the House.

Of course, this drew the ire of the honourable gentleman and after a short hassle with him, I continued and commented on some remarks made by the previous speaker.

the House the small percentage of
the population that was suffering.

**NECESSARY BUT
REGRETTABLE**

South Africa's departure from
the Commonwealth was a necessary
but regrettable event.

After the minutes and the
treasurer's report had been
given, the correspondence was
read. This included a letter from
the Tolland Red Cross re the
need for more funds.

C. E. SMALLWOOD

I drew to the attention of the
House how farming had become
a big business, and I quote the
minutes:

ification whatsoever for people of one race to look down on, to despise and to divide people of another race.

For reasons of sentiment this is said that a British Empire is now an island of prejudice outside the Commonwealth.

For each call each member brought some income made each week. Next meeting in May will be held at the home of Mrs. Nell Grant.

It has been found that at the beginning of settlement of the settlement it took time many to learn one person. Today one farmer can feed 25,000 persons.

Legion Post 11 Honors Vimy Boer War Veterans

12 Men of Vimy, 2 Boer War Vets Answer To Roll call on Friday

On Friday night, for the 30th time, Canadian Legion Post 11 paid tribute to these "Men of Vimy" and their fallen families. Also honored on the same occasion were veterans of the South African war, 1900 to 1902. Attending were twelve from Vimy and two Boer War veterans.

The meeting closed for the night. The Legion and its members were a great help to the war and its veterans.

Unusual Show At New Recreation Building

The Vermilion Recreation Club, which has granted major space to the new recreation building, has completed the first show at the new building.

The show, which was held on Saturday night, was a great success. The club members and their families were very much interested in the show.

Successful Venture in Race Harmacy
An unheralded venture in race harmacy is taking place quietly in and around Canadian cities and towns—specifically every city or town where there is a university or college, writes Leslie Wilson in The Financial Post. The harmacy is the harmacy of the future, and it is not surprising that the promoters and college administrators who are involved in it are all young men.

Production Potential Large
With proper land management Canada could double her production of food and fibre in the next 20 years, says P. C. Brodeur, director of the federal agricultural department's Research Institute, in a report to the Senate Land Use Committee. He said that farm people should be encouraged and assisted to improve their land and to use it more wisely. The committee has agreed to accept the report and to set up a sub-committee to study the problem.

Spring Showings
This is the time "a year" when the great Canadian artistic revival occurs. The spring showings, like the winter ones, are a time when the artists of the country come out of their shells and show their work to the public. Record Foreign Trade
Canada's foreign trade set a new record in 1960 with the value of all exports and imports totaling \$10.1 billion. This was an increase of 2.3 per cent over the previous year. The value of exports was \$5.1 billion, an increase of 2.3 per cent over the previous year. The value of imports was \$5.0 billion, an increase of 2.3 per cent over the previous year.

May Campaign for Car Check
Making every highway vehicle in safe condition is the target of the Canadian Safety Council's May campaign. This year, the driver's responsibility of the individual motorist in ensuring the safety of his vehicle.
The vehicle-check campaign, the special promotion of the Council's Vehicle Safety Committee, will open across Canada at midnight, Sunday, April 30th. Supporting it will be the entire automotive, oil and tire industry. Insurance companies by C.S.C. the May campaign will have the necessary active participation of provincial governments and safety groups, the police and many public service organizations.

What's Ahead for Business?
Evidence is growing that the gentle recession of 1960-61 came to an end during February and March. This view is confirmed week by week by new developments which suggest that the economy is beginning to pick up. The weather of May and June, says Dalton Robertson in The Financial Post, is a factor to watch.

On the breaking front, there are indications that general business to business and to individuals are now doing slightly better than last year. The most significant factor is the fact that the total seasonal pattern would seem to warrant. Most added demand for home repairs, home improvements, and home furnishings is evident. The weather of May and June, says Dalton Robertson in The Financial Post, is a factor to watch.

Quote of the Month
"An educated man is one whose memory is trained to carry a list. A list is history—he is one who can accomplish things. A man who cannot remember is not an educated man, however many college degrees he may have acquired. Thinking is the hardest work anyone can do—it is probably why we have so few thinkers." —Henry Ford

WHY ARE DISCOUNTS BEING OFFERED ON FARM FUELS?
Private oil companies are offering a variety of minor price discounts on farm motor fuels. This is a very unusual situation. The reason for this is that the oil companies are trying to attract business from the farm sector. This is a very unusual situation. Fluorine By Application Health Unit Notes

Each tooth decay can be prevented by painting the teeth with a fluoride varnish. This is done by the dentist after a dental examination. The fluoride varnish is applied to the teeth and is left on for a few minutes. It is then washed off with water. The fluoride varnish is applied to the teeth and is left on for a few minutes. Car Licence Deadline Extended; More Money for Education Fund
EDMONTON. — Car licence plate deadlines in Alberta are getting to be about as stable as governments in France. Last week the provincial cabinet held at the approaching deadline, they looked at the number of cars still on the roads with 1960 plates, and decided the deadline might as well be extended to May 1961.

Highways Minister Gordon Taylor then became so busy notifying police forces in Alberta, other parts of Canada and the U.S. that officials of his own department didn't even know about the change until the following morning.

Under a few years ago, the province was classifying its license plates as March 21. The end of the year was the deadline for the 1960 plates. This, in an effort to avoid the inevitable last-minute rush, the government has decided to extend the deadline to the end of April and the 1961 plates will be issued on May 1. This means that the 1960 plates will be valid until the end of April, and the 1961 plates will be valid from May 1 to the end of the year.

The extension until May 1961 was announced by Gordon Taylor. He said it was due very largely to the fact that the government had decided to extend the deadline to the end of April and the 1961 plates will be issued on May 1. This means that the 1960 plates will be valid until the end of April, and the 1961 plates will be valid from May 1 to the end of the year.

The main criticism of the new financing program has been from school trustees and municipal council members who say the tax will not be enough to pay current costs, let alone the projected increase in the future. The revenue would have been used to pay the cost of the new program, but the government has decided to extend the deadline to the end of April and the 1961 plates will be issued on May 1.

Mr. Taylor's last word on the subject was that he will "re-consider" the plan. He said that he would be looking at the situation again and would be making a decision on whether to extend the deadline to the end of April and the 1961 plates will be issued on May 1.

Poole Construction Gets Curb & Gutter Contract

Clean-up Campaign
Set For May 24

Plans have now been finalized for the annual spring clean-up campaign by the Chamber of Commerce in co-operation with the Town Council. At the Chamber dinner meeting on Wednesday, Mr. Jim Chapman, chairman of the Ways and Means committee, stated that arrangements were now complete and that further assistance will appear in the Standard next issue. Pick-up day has been set for Wednesday, May 24th and the Town Council is arranging for trucks to work on that date.

It is the responsibility of the householder to clean up the premises, pile the debris neatly at the back of the lot, and then help with the loading, if possible.

At a special meeting of the town council held on Tuesday afternoon, the Poole Construction was awarded the contract for the construction of approximately 17,850 lineal feet of concrete curb and gutter.

The lowest of five tenders received for the project, the Poole Construction was awarded the contract for the construction of approximately 17,850 lineal feet of concrete curb and gutter. The tender was for \$25,000. The work will be completed by the end of the month.

A Worth-while Endeavor

A yearly effort which never loses its value is the annual Census. This year, 1961, is the 40th anniversary of the Census in Canada. The census is a very important part of the government's work. It is the only source of information on the population of the country. It is used to plan for the future, to allocate resources, and to measure the progress of the country.

It takes effort and care to keep Vermilion neat and clean, and it is absolutely necessary that every householder, and every business should do his share. Besides seeing that lawns are kept up and lawns are kept up, every property owner should look at his building with a critical eye, to see if it is a good place to live or work. It is a little thing, but it is a good thing to do. It is a little thing, but it is a good thing to do.

Farmers' Union Approves Suggestion

The Farmers' Union voted with interest the suggestion by Mr. James Coyne, Governor of the Bank of Canada, of "better channeling of public credit into various services of private enterprise." This suggestion is in line with the policy of the government for several years. Certainly public funds channeled into the farm sector, to stimulate and develop agricultural production will be of major help to the whole Canadian economy.

While Mr. Coyne does not specifically mention agriculture, the principle does apply. Definite financing does not appear to farm people and they fully recognize the burden of high interest costs. Nevertheless, it is a stimulus to improve the standards where it will do the most good—in the development of agriculture. It can be expected that a dollar in the hands of the farmers will produce a greater stimulus than a dollar in any other sector.

The dollar is spending \$14 million an hour to buy arms and military aid. The military aid for the Americans and the Russians alone totals \$800 million every year. An aid to the arms race would mean that as many as 75 million men around the world would turn from soldiering and arms manufacturing to peaceful tasks.

It is puzzling to think how this money and their men could be put to work to improve the lives of everybody on this planet.

KEEP THEM AT SCHOOL

Speakers at school graduations are stressing the fact that more than a high educational attainment is required to make your way in the highly technical world today. This is borne out by the hard facts of the unemployment situation where the number of those out of work is at an all-time high, while those who are employed are working under conditions that are less than desirable. Those who are unemployed for the most part lack the necessary training to fill these requirements.

The fact and facts are these: Two-thirds of those who are today have only a primary school education or less. And this is the age of technological change and advancing automation. Even more serious, great numbers of unskilled workers in limited education have only left school in recent years. Up to a few years ago, there was no great lack of employment for such people. Now suddenly such jobs have dried up as the machine has taken over in one way or another.

The Department of Education has available grants and loans for education at university, at technical and trade schools, business colleges and in training, at agricultural schools, for those who require financial assistance in continuing their high school course. The department is also available to assist in the cost of living while attending in Canada.

Parents are urged to see that their children do not leave school early, and do not stop at an early stage. Specialized training, leading to a rapidly changing and highly technical world, is the key to a great deal of becoming one of Canada's large army of unemployed with little hope of obtaining a share of the money paid for this life.

Vanishing Farms

Canadian farms are vanishing faster, but at the same time, the number of farms is increasing.

According to previous census, the number of farms in Canada has increased in recent years. The 1956 census of farms of 1941 had fallen to 613,000 in 1951 and to 572,000 in 1956. That's a drop of 15% in 15 years.

Despite the drop in number of farms, the total area of cultivated land remained practically unchanged. The reason: the size of remaining farms expanded — from 277 acres in 1941 to 302.5 in 1956.

Census officials expect the census which begins June 1 will show a continuation of these patterns. And the results will also help clarify a host of related trends, both for the whole of Canada and its various regions. For example, how rapidly has the farm population declined? How much land has been converted to other uses? How much land has been converted to other uses?

Population Boost: A Home-Grown Product

Contrary to popular opinion, the lion's share of credit for Canada's increasing population is not due to immigration. In fact, the lion's share is expected to show that 25 per cent of Canada's 4,000,000-plus increase in population since 1951 stems from natural increase. The remaining 75 per cent is accounted for by net migration.

During the first half of the decade, natural increase was by far the major factor in the population boom of all provinces except Ontario and British Columbia. In British Columbia, natural increase was 54 per cent and in B.C., 62 per cent.

For the nation as a whole, natural increase from 1951 to 1956 is credited with more than 70 per cent of population growth. Of the 3,000,000 residents added to the nation's population, natural increase accounted for about 2,000,000. During the five-year period, the nation attracted 700,000 new Canadians and lost 180,000 residents away from home, to result in a net increase of 520,000.

In the period 1955-1961, the flow of immigration declined. Natural increase accounted for a larger share of the population growth. The flow of immigration declined from 100,000 in 1955 to 80,000 in 1960. The flow of immigration declined from 100,000 in 1955 to 80,000 in 1960.

NEW FRUIT VARIETIES
Three new varieties of fruit have been developed by the Horticulture and Land Use Research Institute and are now available to growers in Canada. These are: 1. A new variety of apple, 2. A new variety of pear, and 3. A new variety of peach. These varieties are expected to be of great benefit to growers.

FRUIT CENSUS
The fruit census for 1960 has been completed. The results show a significant increase in the production of fruit in Canada. This is due to the use of new varieties and improved cultivation techniques.

PERFORMANCE
The performance of the fruit crops has been excellent. This is due to the favorable weather conditions and the use of new varieties. The results are expected to be of great benefit to growers.

United Church Women United

The plans which began in 1958 for the United Church of Canada for the year 1961 are now being discussed. The plans are expected to be of great benefit to the church and its members.

UNITED CHURCH WOMEN UNITED
The United Church Women United is a group of women who are dedicated to the service of the church and its members. They are active in many areas of the church and are making a significant contribution.

THE BARGE GIVES UP

MORE BODIES

From the beginning of time, Mother Earth has nourished and nurtured man. First, the barge and now the barge gives up more bodies.

Now, we have been permitted to discover the world-famous barge that was added as an early addition to our life. As you can see, it is a perfect fit for the barge and now the barge gives up more bodies.

VISIT VERMILION!

The Vermilion Standard is pleased to place before the people of north-eastern Alberta this special "Values Days" issue. It will be of interest to everyone to survey this picturesque town as the bargains and shopping facilities are there in themselves sufficient inducement to visit the town. One of the big aims appears to be to bring the people of this wide area together on a common basis to enjoy the best of the exceptional shopping facilities, fine stores and travel services available in Vermilion, but to make use of the many opportunities provided for recreation.

Headlining these recreational facilities is the Vermilion Provincial Park, where every convenience is provided for happy outdoor living. These many features are fully outlined in various articles and pictures in this issue as well as the superb golf course, the agricultural grounds, the excellent athletic park with its ball diamonds, the kiddie land and pool, and the beautiful grounds of the Vermilion School of Agriculture. These are all provided here for the use of the people of north-eastern Alberta of which Vermilion is definitely the hub located as it is at the intersection of highways 16 and 41.

Vermilion Values Days bring to you without doubt the greatest line of merchandise ever placed before the public. Through the cooperation of the business men who make this large store possible and whose earnings are carried in the surrounding pages of this Standard, the reader will regain its old time purchasing power. Check over the advertisements of these community-minded citizens and take advantage of all the values in goods and services offered. Make use of the recreational facilities, available in great number here in any town in the West.

Eliminate Worry — Enjoy Car Trip

There's no reason why every motorist should not get the fullest enjoyment "at his own motor trip" along the Canadian Highway Safety Council. "All it takes is a little preparation and some common sense."

The Council, operating in Canada the annual continent-wide Show Down and Live campaign through June, July and August in cooperation with the Association of State and Provincial Safety Co-ordinators, has issued a few tips for enjoyable motoring. First, it advises, the car should be checked before leaving. Make certain brakes, horn, steering, exhaust system, and lights are in good working order. These are in top travelling condition.

Then start early, so any error of route will be either eliminated or reduced to a minimum stop when tired or hot to enjoy the scenery. Motorists who art light schedules or visit popular tourist centres and museums, a fast trip gives you one thing: that you might as well have used the time to get pleasure out of the trip.

Drive safely. Ignore others who insist on frantic pace. What you need to think is a sense of superiority or leadership in traffic. Let them bring. There may come a day when you need help.

Let the tail-gating, horn-blasting driver pass. Forget the three of anger that arises when another driver cuts into the safe space between your car and the one ahead. He'll probably still be there when you reach your destination. They traffic rules. Little can be gained and disaster can be produced by making it a rule or two of your own.

"Caution," advises the Council, "drive relaxed and with patience. Assurance and calm of drivers is essential. If you must be annoyed, check for some of your own driving faults and get annoyed enough to correct them. While you drive in traffic, the only thing you can teach other drivers is how to drive safely, and you teach them that by example."

SEE your way to the sunny Pacific.

METAL PATRICK
Did you know that the metal in machinery goes "tired"? Under the name of "metal fatigue" is a process by which a metal object subjected to repeated stresses and strains, even though the stresses are well below the breaking point of the metal, will eventually fail. An example of this is the failure of a metal spring in a car. The spring is subjected to repeated stresses and strains as the car moves over a bumpy road. Eventually, the spring will fail, even though it was never subjected to a stress that would have caused it to fail immediately.

Riverton Honors Old-Time Visitor

On June 1st Mr. Ralph McChesney of Riverton, Mont., was the guest of honor at the dinner of the Riverton Old-Time Club. Mr. McChesney was born in Riverton, Mont., and has lived there for many years. He is now 85 years old and is still very active. He has been a member of the club for many years and has helped to make it a success. The dinner was a great success and all enjoyed it very much.

There are a few other points to be noted. The Riverton Old-Time Club is a very active organization and has many members. They have a good library and a good collection of records. They also have a good collection of books. The club is open to all who are interested in the old-time life of Riverton. The dinner was a great success and all enjoyed it very much.

"Adventure In
Citizenship" A
Great Experience

Laurie E. Stenhouse and tradition
first held in Ottawa was a true
Canadian experience. The first
Lila Jane, "one of the Vermilion
girls" who took part in the first
of 194 students representing the
town of Vermilion in the 1940
Citizenship Week. The first
Citizenship Week was held in
Ottawa, Canada.

Lila Jane was the student
representative for the Vermilion
Citizenship Week. She was a
very popular girl and was
very active in the community.
She was also a member of the
Vermilion High School and was
a very good student.

The young tradition held at
Ottawa by Prime Minister
Robert B. Patterson, Mayor
Charles H. Wilson and the Hon.
Ellen Fairbank.

Marked Improvements at Park Beach

New Spring Board, Floats for Pier;
Swim Lessons At Beach This Sum-
mer, with Mac Fenton in Charge

The most important part of a summer resort, the beach, has again been greatly improved at the Vermilion Park for this coming season.

Firstly a great many more tons of sand were hauled during the winter and spread on the beach and in the water, making a most lovely beach while sun bathing or when in the water. The service of water is also greatly im-

proved for the little tots who bathe within the H and for those who are learning to swim as well, on the deeper side. They too, can get out too deep at the area enclosed by a new type of floating net securely held in place.

The lifeguard and swimming instructor this summer will be from Blackfoot, Colin Kennedy, Glen Mayhew, with Jack Kenting on the reserve list.

Out beyond the safe area is marked off by buoys and life lines. This indicates that every possible precaution is being taken for safety's sake. The new spring board is already in place.

MAC FENTON TO RETURN
This year once again popular Mac Fenton will be in charge of the beach. He will direct the lifeguards and supervise the lifeguard.

The lifeguard and swimming instructor this summer will be from Blackfoot, Colin Kennedy, Glen Mayhew, with Jack Kenting on the reserve list.

In clear weather, with light breeze and ideal floating conditions, it took six hours four days of tramping through the bush before they reached a single buoy.

It is a joy under these, that afternoon often complete with a security of game to areas where they think game should be placed.

Facilities Shown At Beach in the Park

This view of the beach at Vermilion provincial park lake indicates the many facilities and playground equipment there. The well-built "H" pier is shown and this is particularly adapted to the swimming areas which are carried on all summer. Kiddie playground equipment, swings, giant slide, and merry-go-round are shown in the foreground. The benches are handily placed so that parents can watch the children. A

corner of the new convention booth, built just this spring, is shown at the left. The beach has again revived its quota of sand, making it ideal for sun bathing, and this has of course been carried well into the water so that the bathing area has a well-sanded bottom. The new spring-board is shown in the water. New do-lane bathing houses are now under construction.

Official Opening Set For Sunday, July 9

The program which officially opens the Vermilion Park for the summer season has been set for Wednesday, July 9 and is being arranged by the Vermilion Chamber of Commerce. Details will be announced at a later date.

It is also hoped to have quite a number of bands and other musical groups appear at the opening ceremony which will be held at the park on Sunday, July 9. The program will be a day of fun and games for the children.

Horseshoe Game Popular at Park

The Vermilion Park has a large number of people who are interested in the game of horseshoe. The game is played on a large area of sand and is a very popular game for the children. The game is played on a large area of sand and is a very popular game for the children.

New Sidewalk Completed to V.S.A.

Part of the sidewalk constructed by the Town of Vermilion last year to the V.S.A. and a long walkway, one of the new asphalt is shown in this Standard staff photo. The sidewalk was constructed by the town crew under the direction of public works foreman Ken Urquhart. The view is looking west and pictures the sidewalk over the very low area from the front station west. This new walkway is a high earth fill laid, packed, with the hard surfaced walk being laid on top.

This 30-ft wide estimate the need for the sidewalk to walk on the highway when going into Vermilion.

Vermilion School of Agriculture and Home Economics Started in 1913

The Vermilion School of Agriculture and Home Economics, which opened in 1913 and has operated with some exceptions since that time. This is a residential school which can accommodate 100 boarders and 200 day students. Attached to the school is a farm of 100 acres.

This farm is stocked with pure bred cattle of Holstein, Friesian, Yorkshire and Shorthorn breeds. In addition various hard breeds are represented. This stock is primarily for study purposes though the dairy herd provides the school with milk for the dairy course.

Over the years, since 1913, the school has continued to expand its facilities and improve its equipment.

Touch and Go for Ducks

Thousands by Ducks Unlimited find them and information from other sources indicate a significant decline in the number of waterfowl on the prairie, but an increase at the northern fringe of agriculture and beyond . . .

STAYING POWER: Ducks are staying in the area, but the number of ducks is down. The reason is a simple one: the ducks are not as numerous as they were in the past.

LI Ghosts Sport New Uniforms, Courtesy of Businessmen

If clothes make the man, then the new uniforms of the boys above make them "LI Ghosts" — of the hall-famous variety of ghosts. This team is the new entry into the Little League this year and are doing right well for themselves. The "LI Ghosts," who are sponsoring the miniature edition, and the Vermilion Little League wish to thank the following:

businessmen who made the new uniforms possible: Wilson Electric, Paul's Hardware, Northern Hardware, Checkmate, Truitt, Joe Brewer, painting and decorating: Geo. C. Webb & Sons; Benjamine Hotel; Craig's Ltd.; Long's Drug Store; Vermilion Standard Ltd.; Beckman Insurance; J.P. Pharmacy; MacMillan Insurance; Fleming Hotel; Renaud & Co. Hardware.

OUR FACES ARE RED!

...and we apologise to the many, many customers who were disappointed last Friday night. In planning for Friday night shopping we never anticipated in our wildest dreams the overwhelming response. The result, as you who visited us know, was that many items were completely sold out and the shelves bare. We will do our best to see that it never happens again. In the meantime, we apologise and thank you!

HOW MANY MILES SHOULD A TRUCK LAST?

It depends on the driver—the care that a truck is given—and on the manner in which the truck was built. Let's assume the first two factors are average... the driver is reasonably considerate of his truck—the maintenance it receives is sensible and regular. Now, the mileage we can expect depends on how the truck is built.

NOT A CHIEF, SUFFERING LAST 40 YEARS

Let's talk suspension. Here's another way in which Chevrolet trucks are built to last. Chevrolet's famous independent front suspension with torsion springs, before Chevrolet used a live axle system, gave Chevrolet trucks a smooth, quiet ride. Successful businessmen have built up on the sound principle of providing a reliable product or worthwhile service. They could be said to have a better advantage in many of our personal and business relationships. Like rappers visited when a problem is thrown into a pool, and many others who expect far beyond the original price.

Customer service is the key to success in business. It is the difference between a business that is a success and one that is a failure. It is the difference between a business that is a success and one that is a failure. It is the difference between a business that is a success and one that is a failure.

Advocate Use of Safety Belts In Cars and Trucks

Seven hundred Canadian motorists are killing themselves every year because they choose to ignore a simple precaution, said Ron W. Tompkins, President of Chrysler Corporation of Canada, Ltd., in Windsor recently.

Mr. Tompkins said that at least that number of traffic deaths would be avoided every year if all motorists wore safety belts, while another 20,000 would be spared serious injury.

In making a novel point to the news media, he urged that Canadian motorists and newspapers make a practice whenever possible, in reporting traffic fatalities, of adding the information as to whether the victims were wearing seat-belts.

National Immunization Week

This year, during the week of September 20th, Canada will celebrate its 15th National Immunization Week, announced Dr. Gordon B. Laing, General Director of the Health Services.

This annual event is designed to call public attention to the fact that there are immunizable diseases which may be prevented by immunization, namely, diphtheria, whooping cough, tetanus, polio, measles and mumps.

It's HOLIDAY Time!

The Vermilion Standard will be closed for business on Monday, July 28th, to celebrate the 15th anniversary of the National Immunization Week.

On Tuesday, July 29th, the Standard will be open for business as usual.

The next issue of The Standard will be Thursday, August 17th.

NEWS AND VIEWS FROM YOUR CORNER

The first Co-operative Public Relations Federation in Alberta was formed at a meeting of Co-op delegates at Vegreville on Thursday, July 20th last.

The official name of the Federation will be North-West Co-operative Public Relations Federation. Each of the nine sub-divisions will be represented on the Board of Directors of the Federation. The president elected at the Vegreville meeting was Mr. James Jackson of Irma, Alberta.

Other delegates to the meeting were Fred Scott, Ross Taylor and Hector Cameron. Mr. Cameron was elected to the board to represent the Co-ops in the Vermilion district.

The three main objectives of the Public Relations Federation will be: (a) to increase member and public understanding of the co-operative movement; (b) to improve relationships among co-operatives; (c) to increase co-operative participation through sound public relations methods.

Miss Edna McKay Becomes June Bride of Mr. Joseph Gourley

LLOYDMINSTER.—The Rev. Father Grout officiated at the double-ring ceremony in St. Anthony's church, Lloydminster on June 24th at 3 p.m. in which Miss Edna McKay became the bride of Mr. Joseph Gourley.

Cadets Begin Summer Training
EDMONTON.—More than 300 Edmonton and district high school youths began their summer training as part of the Army's young soldier plan when they reported at Hamilton Gault Barracks, Griesbach, July 1st.

The boys will spend a week on basic training in Edmonton, then go to Camp Sherear just outside of Calgary for one week, return to Hamilton Gault Barracks for two more weeks and spend their summer training for two weeks at Camp Watmough.

During the summer the young soldiers receive full army instruction in all aspects of military life, including drill, marksmanship, and physical training.

James Gourley, brother of the groom, were best men. Father Grout officiated at the ceremony. The bride and groom were accompanied by their parents and other relatives.

The bride was a daughter of Mr. and Mrs. Thomas Gourley of Lloydminster. She is a graduate of the Lloydminster high school and is currently attending the University of Alberta.

The groom is a son of Mr. and Mrs. Thomas Gourley of Lloydminster. He is a graduate of the Lloydminster high school and is currently attending the University of Alberta.

The couple will reside in Lloydminster. They have a large family and are looking forward to a bright future.

To Rebuild, Pave Highway 41

John Stewart, Vermilion 494, Shows Grand Champion
John Stewart of the Vermilion 494 Club has won the Grand Championship for the fourth time at the Vermilion Fair. John is the son of Mr. and Mrs. John Stewart of Vermilion. This animal was purchased by Craig Bros. of Vermilion for \$35 a pound.

Survey Nears Completion And Work To Commence At Once
A start on a long hoped-for dream, the hard-topping of Highway 41, is about to become a reality. This good news was announced by the Board of Highway Commissioners, when they officially opened the Vermilion Fair, in making the announcement. Mr. Taylor said that the Vermilion constituency member of the Legislature, Arthur Cooper, for his representations over the needs for improving Highway 41.

There is little doubt but that work will be continued
year round on Highway 41. The work will be done by Highway 41, north of the Fair, is all hand labor.

Mr. Cooper states that the present plans will be for the reconstruction and hard topping of the 21 mile stretch from Vermilion to the north end of the Fair. The new road will have 42 ft. base on both sides of the road. The extra right-of-way required will be paid for by the province. The work will be done by hand labor.

Dr. Ben King First Local Winner Of Vermilion Golf Tournament
Dr. Ben King, on the left, became the first member of the Vermilion golf club to win the local tournament. By so doing he became the winner of the Rose & Sons trophy. Bob Rowe, on the right, is making the presentation to the victorious champion.

Mannville Police Thwarts Burglary; Shot In Foot

Mannville's constable, Ernest Martin, thwarted a robbery attempt at the Mannville Co-op store on August 16th at approximately 3:25 a.m. and was shot in the foot in the struggle. Two shots in all were fired.

STAY IN SCHOOL

It is a given fact in the Canada of the future the untrained are likely to be unemployed, although the unemployed. This problem and some answers to it were the subject of a recent speech by a consultant of Ontario industrial education J. M. Piggot, chairman of the Piggot Construction Company. Noting the forecast that 71 per cent of minimum presently in grade two will leave school before time grows, Piggot indicated that level. Piggot added the point that, even now, of all jobs available to Canadians only 30 per cent are open to the untrained. 70 does not go into 30, unemployment in the future prospect for most of the job-seekers.

Fatigue Rises Among Top Highway Builders

Statistics on holiday construction indicate that fatigue is one of the three greatest highway killers. Others are speed and drunkenness. Fatigue, and the dangerous lack of alertness that results, often can be averted by frequent breaks of sugar, or other energizing foods. Carbonated beverages, available at most rest stations on the highways, contain enough sugar in easily-digestible form to provide quick fatigue. The carbonated drinks, however, are not the best source of energy. Another good guard against driving fatigue, if two or more are driving, is to alternate driving every hour. Safe driving means against driving more than 100 miles on a highway without stopping for rest and refreshment. A traveler can cover a full 300 miles in an eight-hour day at 40 miles per hour. Chances of someone being killed in an accident are 50 per cent greater at 53 miles per hour. At an accident at 65 miles per hour, the chances of someone being killed are 125 per cent greater.

WINE WORK!
The installation of curb and gutter certainly pays the way for nice appearing and serviceable streets. The Standard's attention to several blocks in the east end of the town which have been completely finished, with bands and manholes, has been the stimulation of that and more, not only pleasing but makes the stimulation of that and more. Housewives will thank the completed job, motorists should praise the roads, and the public-minded will praise the work. The expansion of residential area, the extension of service reaches to all the new areas of Vermilion. The town public works crew deserve praise for their continuous and painstaking efforts in this respect.

Canadian Feeders Must Watch U.S.
Prices of feeder cattle in the U.S. during the coming fall season may be a little lower than current levels, according to two agricultural economists at the University of Minnesota. Paul Henderson and Ken Egerton are predicting a profit opportunity for the careful feeder this fall. They cite the following reasons:
1. Current slaughter cattle prices are at a 4-year low.
2. Cattle feeding profits have been low during the past season.
3. Drought conditions have damaged northern ranges.
4. Higher feed prices are expected for the coming fall season.
Cattle feeders with ample feed supplies should be about as they take advantage of good buying opportunities which develop in the next couple of months. Slaughter prices are expected to strengthen this fall. If they do and if drought conditions in many areas are relieved, feeder prices may well recover later in the season from the present low level.

**The Alberta Game Farm
A Spectacular Experiment**

The Alberta Game Farm, a spectacular experiment in animal husbandry, is now open to the public with valuable assistance in trying to prevent the extinction of species such as the caribou, and muskox.

Located on a hillside with the country that only a few years ago was the home of the muskox, the game farm is a spectacular experiment in animal husbandry. It is the result of a life-long dream for its creator, A. B. P. Cooper, a 35-year-old biologist, and an authority on northern wildlife. Owing much to the only serious assistance in this regard, a professional writer and novelist, Mr. Cooper, the game farm is now open to the public.

Today the farm is home to 750 animals. Among these are Arctian caribou, Porcupine, muskox, and muskox. The caribou are the only ones of their kind in the world. The muskox are the only ones of their kind in the world. The caribou are the only ones of their kind in the world. The muskox are the only ones of their kind in the world.

SALT SAVES ROAD COSTS

It is a well-known fact that salt is one of the most important materials in the world. It is used in a variety of ways, from food to industry. In the case of roads, salt is used to melt snow and ice, making them safer for travel. This is why salt is so important for the transportation industry.

Letters to the Editor

Dear Editor:

I am writing to you to express my appreciation for the excellent work you and your staff do for the community. Your articles are informative and well-written, and I appreciate the effort you put into them.

GREEN ACRES

By: H. MORLEY DOUGLAS
District Agricultural

What is a District Agricultural Officer and why have one? A District Agricultural Officer is a person who is responsible for the agricultural development of a district. They work to improve the lives of farmers and the productivity of the land.

One of the main responsibilities of a District Agricultural Officer is to provide information and advice to farmers. They help farmers with problems related to crop production, soil management, and pest control.

16 Years Ago Today

A new day of cleaning plans was being built in town, one day after the fire. The fire had destroyed many homes and businesses, but the community was determined to rebuild and move forward.

32 Years Ago Today

Schools reopened with 32 in the class. The children were excited to start a new year of learning and growth. The teachers were also excited to have a new class of students.

48 Years Ago Today

Charles Cooper, engineer on the Trans-Canada Express, died. He was a well-known figure in the community and his death was a significant loss. He had dedicated his life to engineering and transportation.

100 Years Ago Today

The first school in Vermilion was opened. It was a small building, but it was the beginning of education for the children of Vermilion. It marked a significant milestone in the town's history.

150 Years Ago Today

The first settlement in Vermilion was established. It was a small group of people who came to the area and started a new life. They laid the foundation for the town that we know today.

Agricultural Service Board Notes

The Agricultural Service Board has been busy with various projects and initiatives. They have been working to improve the lives of farmers and the productivity of the land. They have also been providing information and advice to farmers.

There was a very poor attendance, however despite this, urgent matters were dealt with. The treasurer's report showed a nice profit from a banquet held earlier in the month.

The kitchen convener brought another item for the Legion hall kitchen. Members are asked to bring oak and popper etc. on

**Hon. Russell Patrick
To Attend London
Conference**

The seventh conference of the British Commonwealth Parliamentary Association is to be held in London, England, Sept. 21 to October 2nd and is to be attended by the Hon. A. R. Patrick, Minister of Industry and Development and Provincial Secretary.

At the conference commonwealth parliamentarians will discuss such topics as economic cooperation, constitutional and parliamentary practice and social development of under-

developed countries of the Commonwealth and international affairs and defence.

Tours of the United Kingdom will precede the business sessions which are to be held at the Royal Gallery of the Houses of Parliament. Opening ceremonies will be conducted by Her Majesty Queen Elizabeth.

Mr Patrick left for England on Aug 25th. Prior to the opening of the meeting he will confer with Alberta's Agent General.

On his return, the minister will attend the annual Provincial Governments' Industrial Conference which will be held this year in Newfoundland. Oct. 11 to 13.

A person with charm is one who can make another feel that both of them are pretty wonderful people.

Where Will the Geese Feed?
The grounds farmed by geese for a lengthy stopover on their flight from the north to their winter home in the southern States, the Canadian area, is this year afflicted by the severe drought, with the result that crops on which the geese feed are almost completely dried out. While water in their favorite lakes is just not there, the geese will have to seek other feeding grounds. Will this area, then, be able to take care of the geese? This is a question that will be asked by the geese as they fly over the area.

How Can Such Acts Be Explained?
Devising just the wrong concepts and shirked on privacy located on the banks of the Saskatchewan River at the north end of the Elk Point bridge, a traveler was amazed to notice that the plastic materials used in the windows had been dashed with what appeared to be a very sharp knife. An act of senseless vandalism, but what vandalism has any sense? It makes one wonder what satisfaction a person of any mentality can achieve by destroying property. The pleasure for the enjoyment of such and every one of us, the small, mild, and the great.

Eleven Steps To Survival
While most people have critically balanced over the Berlin issue it is essential that people throughout this nation provide themselves with a practical plan for survival in the event of a nuclear war.

- (1) Know the effects of nuclear radiation.
- (2) Know the facts about radioactive fallout.
- (3) Know the warning signals and have a battery-powered radio.
- (4) Have some shelter to go to.
- (5) Have the home emergency plan.
- (6) Know how to prevent and fight fires.
- (7) Know how to protect and store food.
- (8) Know how to protect and store water.
- (9) Know how to get rid of radioactive dust.
- (10) Know how to protect and store your family.
- (11) Have a plan for your family.

Vermilion High School

Two trophies were won by the 20 Language 20 and Latin 20, thereby winning the Robinson Stores award, presented by Mrs. John Brown.

Boost Due For High School Spirit

Something new has been added to Vermilion High School which might give the needed "shot in the arm" for a winning school spirit. Four boys have been added to the Girls' Pep Club and planned to make their debut as cheerleaders at the Vermilion-Wainwright football game last Saturday.

Head cheerleader, Ruth Stewart, commended the new contenders and cheerleading will be Brian Wilson, Ed Marlett, Keith McDonald and John Seddon, newly-elected president of the Student Union.

By the time basketball season hits the Vermilion floor, the boys should be in their white pants and red sweaters to contrast with the girl leaders in red skirts and black sweaters. About thirty girls have found time to join the Pep Club which meets once a week during noon hour. The girls receive mass instruction in cheerleading if they fill the only requisite for membership... attending all home games slated for the Vermilion floor.

This interested group of active youngsters needs the support of the entire student body as well as the support of the community. Mrs. Eleanor Maddocks sponsors the Pep Club.

A big award of the evening was made by Austin McKelvie who presented an Alberta Hotelmen's Assoc. scholarship, valued at \$500.00, to Vivien Tillett, grade 12 graduate.

Nita Clarke was adjudged the best student in the Commercial program, and won the Craig's Dept. Store award, presented by store manager John Stewart.

Annual 'Awards Night'

Colin Edey, winner of the prize for Grade Ten Industrial Art, is presented with the George C. Webb & Sons trophy by George Webb Jr.

Francis Wilson was the Long's Drug Store award for the highest standing in Social Studies 10, Language 10 and Literature 10. Carman Long presented the prize.

First Annual Awards Night at Vermilion

Early in the school term one year ago, a recommendation was made by the Vermilion school board to the effect that some new awards for the school term should be obtained, and that the much-discussed trophy case for the school hall should be completed. It was further suggested that plans be made to have an "Awards Night" early in September to honor those students receiving the trophies, and these students receiving money awards from various organizations around Vermilion.

In line with these suggestions numerous businesses and organizations in town were contacted, with the ultimate result that a truly beautiful array of trophies were presented, covering practically every phase of the academic work of the school. These are all on display in a beautiful display case in the school hall. The trophy remains in the school, while each business sponsoring a trophy presented a prize as well to the winning student.

On Friday night, September 15th the much-anticipated awards night was held. It proved to be a brilliant function, marked only by a much smaller attendance than anticipated, parents and adults showing a surprising lack of interest in this unusual and interesting school event which was very well staged indeed.

This will become an annual affair, and already plans are being considered for making the 1962 "Awards Night" even more outstanding. Pictures of the winning students, representatives of the firms making the awards, and the prizes won, appear in picture form on these two pages.

This unusual and interesting story-in-pictures was made possible by the generosity of the following firms: Robinson Stores, Craig's, Long's Drug Store, Vermilion Hotel Ltd., E. F. Norton Implement Co., S. C. & C. T. Heckbert, Geo. C. Webb & Sons Ltd., Vermilion Standard Ltd. All are standard staff photos.

Katherine Chirp was awarded the top student award, presented by Mrs. M. J. Norton. Implement Co. trophy to Mark Norton manager.

Vivien Tillett was the top French 20 student, thereby winning the Heckbert Insurance trophy, which was presented by S. C. Heckbert.

Andrew Ellis is presented with the Junior Home Economics award by Mrs. W. T. McIntyre, president of the Princess Anne Women's Institute.

Ernest Lee won the Kinsmen Club award for highest average in Grade 9 departmental exams. Fred was an honors student. Unable to attend awards night, his trophy was received on his behalf by his teacher, Mrs. M. Chisholm, and is being presented by Bob Rowe, president of Vermilion Kinsmen.

Dorothy Towell receives the Canadian Imperial Bank award for Math 10 and Chem 10 from loan manager E. J. Smith.

The Vermilion Home and School trophy for French 20 was won by Katherine Chirp, presented by Ross Taylor, the president.

Students are better golfers than the teachers this year, as a team of five students defeated a team of teachers. Principal Smith presents the trophy to Doug Heckbert, with other members of the winning team being Terry Cooper, Bob Park, Roger Renaud and Colin Edey.

General preference award for grade 12 was won by Dorothy Towell, thereby winning the Vermilion Elks prize, presented on behalf of the Lodge by Warren Rousquet.

Tom Smith, adjudged the best Junior student, receives the Revlon Lumber Co. award.

Evelyn Paul receives the Senior Home Economics award from Albert Haverthorn, representing Haverthorn's Tom Boy.

Gerrit Luman is holding a large plaque in which all boys students in the school will have their names engraved each year. The plaque is sponsored by the high school staff and was presented by Principal A. L. Husby.

Forby Ford was top student in Mathematics 10 and Science 10, and receives her trophy and prize from Lawrence Webb, Worshipful Master of Vermilion Masonic Lodge.

Dorothy Towell won the Don Taylor prize for general preference for high school girls. The trophy was presented by Don Taylor, a long-time member of the Vermilion School Board.

The general preference award for Grade 9 which has been presented to the Vermilion B.P.O. Elks for 13 consecutive years was presented by Elsie Baker Warren Rousquet to winner Richard Brennan.

Roger Renaud won the general preference award for high school boys. Charles Redmond, Chief Ranger of the Vermilion Forestry, presented the trophy.

Vivien Tillett gets a big barrel and trophy from Canadian Legion Post 11 for highest standing in English 10 and Social 10. Mrs. C. A. Vail, president of the Vermilion 10 of each of the Legion, makes the presentation.

Andrew Ford won the Crown Lumber Co. trophy for best in Grade 11 Industrial Arts. He is being presented his award by Crown Lumber manager, Chuck Underdown.

The Vermilion Rotary Club award to the student who has brought distinction to the VHS with highest average was won by Dorothy Towell. The trophy is presented by G. W. Rutherford, president of Rotary.

Spy Hill Jail Break Provides First Rate Mystery Thriller

By BOB HARRIS

EDMONTON.—Alberta found itself in the midst of a first-rate mystery last week.

It revolved around the escape of five convicts from the very hill jail near Calgary. And Premier Manning, who is also attorney-general of Alberta, found himself with a mounting anxiety to prevent the escape, to identify and the public works minister, James Harvie.

In the first place, the men who escaped to freedom with the five convicts were not the first to break out of the jail. They were the first to break out of the jail since the escape of five convicts from the very hill jail near Calgary. And Premier Manning, who is also attorney-general of Alberta, found himself with a mounting anxiety to prevent the escape, to identify and the public works minister, James Harvie.

Mr. Manning immediately dispatched a unit of 100 men to the jail to prevent the escape of the five convicts. The unit was led by the head of the Alberta police force, Mr. J. H. McCallum.

Secondly, and perhaps more importantly, the escape of the five convicts was not the first to break out of the jail. They were the first to break out of the jail since the escape of five convicts from the very hill jail near Calgary. And Premier Manning, who is also attorney-general of Alberta, found himself with a mounting anxiety to prevent the escape, to identify and the public works minister, James Harvie.

At weeks end, six convicts were released from the jail. The release was the result of a decision by the Alberta court of appeal. The court found that the five convicts had been wrongfully imprisoned.

Mental Retardation Greatest Single Chronic Affliction

Increasingly, mental retardation is the greatest single chronic affliction of our children today. Approximately 12-15 in every 1,000 children in Canada, and the Canadian Association for Retarded Children state that within the next 25 years a return to normal will be born somewhere in the country. Of every 1,000 children born, 30 will be retarded to some degree. Comparatively, 40 children are afflicted with rheumatic heart disease, 35 with cerebral palsy, three with crippling polio at its peak, and two with blindness.

There are 50,000 mental retarded in Canada. Of these, 100,000 are children. Within the families of these children are more than 1,500,000 people are directly affected by this problem.

The plight of the retarded child and his family—constitutes one of the nation's major socio-economic problems. Retarded Children's Week, the Canadian Association for Retarded Children—a federation of more than 400 associations from coast to coast—has been organized to bring to the attention of the Canadian people. It urges you to contact your local retarded children's association and learn how this terrible affliction is being fought.

It is very largely suggested that the retarded child through your personal interest and with financial assistance.

Child Accident Prevention

In Metropolitan Toronto last year, motor vehicles were responsible for a large proportion of the accidents involving children between the ages of 11 to 14.

The three main causes of these accidents were: crossing streets without proper crossing through moving traffic and passing on the roadway. Of 24,000 accidents last year in the children's age bracket, 20,000 resulted in death and 22,500 in injuries.

Are parents really responsible for these accidents? After all, less than 20% of the child's time is spent under the jurisdiction of his parents. Of the time he is under the responsibility of his parents, they must look to the parents to accept this responsibility of educating their children in road safety. Also, often has one noticed parents breaking every rule of traffic safety that the school has spent days and weeks in teaching their children? When a parent meets into a new community, does he ever inquire how many accidents have happened recently? The school should be taught that the street is for the movement of traffic and not for the play of children.

Winning Essay On Armistice Day

The theme of the national contest was "The Armistice Day in My Community". The winning essay was written by a young boy named "Pip" from the Vermilion Standard.

His essay was titled "The Armistice Day in My Community". It was a very touching and well-written piece that captured the essence of the day and the feelings of the community.

The essay was judged by a panel of experts and was awarded the top prize. It was a great honor for the young boy and his school.

HOW MANY ARE BANK CUSTOMERS?
 A safe guess would be every one of them / That's because, in Canada, practically everybody has regular dealings with a chartered bank / Deposits accounts number more than 18 1/2 million - or better than one for every adult. And on the books of the banks at any one time are 1,800,000 loans for just about every personal and commercial purpose / Through 6,000 branches, from one end of the country to the other, the chartered banks bring a full banking service within the reach of everyone.

Electric Clothes Drying
 CLEAN! Electric clothes drying is clean as electric light! It gives you "just right" results in any weather—miserable weather, winter weather or dusty weather!
 "JUST RIGHT" for white clothes. Electric drying leaves them bright, and fresh as "just outdoors."
 "JUST RIGHT" for colored clothes. Electric drying leaves them bright, and never lets them fade in harsh sun and wind.
 Try electric clothes drying—it's the modern, scientific way to end those washdays, workdays worried!

Antidote For Radio Active Fallout

1. One large cup of clean thought.
2. Mix well with gallons of love, education, and consideration for others.
3. Add one brimming cup of charity to those less fortunate than you.
4. Bring the above mixture to a boil.
5. Remove some scum that is bound to have accumulated, and discard.
6. Continue to heat and gradually cool before spreading on a new outlook on life.
7. Take large doses of thankfulness along with the above remedy, all along believing only one-tenth of what you read and hear.
8. Results of the above remedy if taken before and after meals and before retiring, should be astounding.

year 1961-62. Joe Pedlin is the new superintendent, succeeded by Bob Brown and E. Gregory. Gary Proctor is the new principal. The new custodian is the new custodian.

On Wednesday, Oct. 18th, a Family Night was held in the Community hall. The principal, the chairmen of the group committee, welcomed the parents and guests. Mr. Kruger showed color slides of some of the children. He was accompanied by his wife, Mrs. Kruger, and his daughter, Mrs. Kruger.

The new treatments, the oldest of which is only three years old, and now others, consisted of special studies on emotionally disturbed children, and recommended very strongly the availability of a clinic. A full report on the results of the study will be in the Standard at a later date.

Flouridation in Alberta**

Support for flouridation of water supplies has been received by the Alberta Federation of Home and School Associations.

In a statement the association also says it opposes the three-hour majority requirement of the Alberta government for local municipalities on flouridation can pass. The statement points out that policy of the Alberta Federation, as determined by resolutions passed in 1955 and 1957 includes support for the flouridation of communal water supplies.

In the United States, where flouridation has been common for years, and Teachers in some organizations that recently have reaffirmed their favorable position towards flouridation, according to the Health League of Canada.

A totally new Mercury size!

Meteor has arrived!

A foot longer than compacts, a foot shorter than big cars, the new sized Mercury Meteor joins the big Monterey and the compact Comet to meet your driving needs at a dollar.

Its name is not new. Everything else is. From totally new interior body to every drive mechanism.

Meteor's wheelbase is a long 116 1/2 inches, drive shaft and axles in line with the wheelbase. It's also easier shorter than a big car, only one inch into parking space, and it's easier to pass by.

Also new is body size as Meteor's own engineers. There's a 143 horsepower V-8 engine for standard 1968 Meteor. Meteor's 991 cc. 4 in. 6 is in your size. Meteor's 991 cc. Meteor 991 cc fits the bill. And cuts your gas bill at the same time.

Custom items illustrated are optional at extra cost.

Meteor's beautiful new interior seats six without a shoulder. Luggage is welcome. Shovel. The trunk is 2.5 cubic feet high. And this is also the widest Meteor in history. And—the most service-free.

In Meteor, chassis lubrications are up to 10,000 miles apart. Oil change interval is up to 6,000 miles. Brakes adjust themselves. Automated muffler lasts up to three times as long as standard mufflers. And the new 2 year or 30,000 mile radiator coolant is factory designed.

Meteor's name is not new. But its size and everything else is. Size it up for yourself. It's in the Meteor and Monterey Custom. The totally new Mercury Meteor, one of the Ford Family of Five Cars—built in Canada.

Helena Krista Foted At Shower

Miss B Taylor on Friday evening last to honor Miss Helen Kretz, daughter of Mr and Mrs Carl Kretz of the King Edward district, whose marriage to Mr Eugene Howorhin, son of Mr and Mrs Walter Howorhin of the Mannville district took place at the Holy Name Roman Catholic church Vermilion, on Wednesday Nov 22nd at 11 a.m.

Mr Joe Morlock on behalf of the gathering, expressed the hope

and presented them with a large decorated basket overflowing with milk, honey and bread.

Excitement mounted as several members of the senior high class

stopped the last wrapping to be removed by the bride or groom.

Community singing and musical selections were much enjoyed and the evening was brought to a close with a sumptuous lunch served by the hostesses.

Special Session Endorses Dominion Fiscal Relations

By KEN MASON
EDMONTON—It was the special mood of the Legislature that was the shortest on record in Alberta, it had to be close to it. Members spent a grand total of three and one-half hours dealing with a piece of legislation which is the heart of it, namely the one of the most important in the past in Alberta in many years.

It was the special mood that kept the Legislature in session for so long. The members of the Legislature were in a hurry to get the bill passed. The bill was passed by a vote of 40 to 10.

MOVING . . .
We are moving to THE BOUTON BUILDING just north of the Bakery. Business as usual from our New Office.

The session opened with a prayer by the Rev. J. P. Gorman, pastor of the Anglican Church. The speaker then turned to the bill. He said that the bill was a landmark in the history of Alberta. He said that the bill was a landmark in the history of Alberta.

Chic . . .
and so nice to your budget!

Janet May Gurney Becomes Bride of Robert MacKay
Double Ring Ceremony

At a recent doubling ceremony at First United Church, Vermilion, Miss Janet May Gurney became the bride of Mr.

Robert George MacKay The bride is the daughter of Mr and Mrs Sidney Gurney of Kokono. Mr and Mrs John MacKay of Lloydminster are the parents of the groom.

Dressed in traditional white, the bride was escorted to the altar by her grandfather Mr. W. G. Bowman of Kolonee. She carried a bouquet of white flowers. The groom, The Rev. Carlton Miller read the vows. The officiating minister was the Rev. both of Lloydminster. The bridesmaids were Mr. Peter Gurney and Mr. Fred Mackay. The wedding music was played by Mrs. A. M. West.

A reception was held in the hall.

Mr. and Mrs. Markay will reside in Lloydminster.

Young Marauders Seek Revenge

Young Marauders' bright and creative experience were again on display in the boys' hockey game on Thursday. As usual, the Marauders were the victors in the game, winning 4-1 over the home force in an even, exciting battle. The Marauders' goalkeepers were superb, and the team's defense was solid. The Marauders' offense was also strong, with several goals scored in the first half. The game was a good one for the Marauders, and they will be looking for revenge in the next game.

Vermlison is this week heralding the first building erected in Vermlison on exclusive office accommodation for rental purposes.

The new structure is located on 20th street, conveniently located close to the town's business centre, has four suites of offices, all at street level, and is well equipped with modern conveniences to accommodate any type of office required.

Owner of the block is Mr. Wm. Boulton, who has been instrumental in the removal of the town by his ambitious project.

Contractor was Mr. W. Pool, who used all local sub-contractors in completing the structure and valuable addition to Vermlison's business section. Tom Wilson was in charge of all electrical work; Vermlison Plumbing & Heating installed the plumbing; and Mr. J. Macdonald was in charge of excavation.

Congratulations are extended to Mr. Boulton on the completion of this fine building — an asset to Vermlison.

Rotary Flower Man Visits Here

ATTEMPTED to murder a Vermont Rotarian are de-
fended on Tuesday evening at
the Vermont State House.
Rotary Club flower man, Mr.
J. W. "Jesse" Hughes of Kel-
ley, said he knew it was
a surprise visit but a gathering
was held at the home of the
rotarian, Mrs. Maud Steele
of Rutland, and the second
Rotaryman, Laure, who said
local club members met their
guests at the home. "I am
not a Rotarian, I am known
all over Vermont as the

the year 1914, now was in her third year.

Mrs. Steele was born in Millwaukee, Wisconsin, on May 11, 1878. She came to Canada in March, 1914, and settled west of Vermilion. This district was her home until 1943 when she moved into Vermilion.

It is John Hughes who sends the beautiful poem and blooms to the Rotary club. The members of the club in turn, tribute the cut flowers and thus help to brighten the lives of invalids, shut the and old folks.

Vermilion Rotarians have distributed hundreds of Mr. Hughes' flowers.

Death of Kenneth Sidney Groat

Kenneth Sidney Groat, beloved infant son of Mr. and Mrs. Sid-

was preceded by Mr. W. F. Daley in 1929 and by her husband, Mr. Wm. Steele in 1987. Surviving members of the family are three daughters, Mrs. R. A. Steele, (Ruth) Lake Forest, Ill.; Mrs. Wm. Barr (Edna), Victoria, B.C.; Mrs. T. Cairns (Doris) and her husband, Mr. Wm. Cairns, both in Victoria on pension and on social security.

The flower man originally lived at Okla. later moving to Kelowna.

PLAIN PUDDING

Plain pudding evolved from the English "pudding" known as "trappery". The Christmas feast, "trappery" consisted of sweet bread, usually the fishes head and after dessert, usually the fish or mackerel and eggs. The fish or mackerel was served in a decorative bowl, and the sweet bread, called "trappery", was served in a separate bowl. The name "trappery" came from the fact that the fish was served in a decorative bowl.

Cranberries Traditional At Christmas

Cranberries are a part of our country's Christmas traditions, and have been for many years. The Indians were the first to use them in their food. The first cranberry sauce was made by the Indians and the first cranberry sauce was made by the Indians.

"How can we select a Christmas tree that holds its needles?" is a question fathers and mothers ask year after year.

The answer depends on the type of tree you buy and the care you give it, says a buyer and it says:

The ideal Christmas tree is the fir. It resembles the spruce except that its needles are not sharp. The needles stay on the tree for a long time, and become a golden brown before they finally drop off. Needles of the Douglas fir are flat and soft to the touch. This popular tree can be easily identified by examining the cones which have small appendages on each scale.

There have never been very popular as Christmas trees in spite of the fact that they do not shed their needles easily. This is most likely due to their unsymmetrical appearance which does not really resemble the traditional Christmas tree.

No matter what kind of Christmas tree you select, it will hold its needles longer if it is standing in water. Place a little water in the base of your tree stand and you will be bothered less with falling needles than you were last year.

CHRISTMAS

 But I was not quite convinced
 by that logic. I was not old.

This Thanksgiving, everyone went out to the same spot where appeared a beautiful Christmas tree with a white glow.

Madeleine gathered the children and joyfully sent to Motherland all the warm wishes of the French people.

The children were very happy that they would still come to see

Potential Fire Danger Exists In Family Christmas Tree

When the Christmas tree is decorated and the lights are turned on, the potential fire danger is increased, according to a report from the National Fire Protection Association (NFPA). The report states that the majority of Christmas tree fires are caused by faulty wiring, candles, and lights. The NFPA also notes that the majority of Christmas tree fires occur in the living room, and that the majority of Christmas tree fires result in property damage. Great Story Was Hidden For Centuries

The story of the Christmas tree is a story of discovery. It is a story of how a simple evergreen tree became a symbol of the Christmas season. The story begins in the 16th century in Germany, where the Christmas tree was first introduced. The story continues through the centuries, as the Christmas tree became a popular tradition in many countries. The story ends in the present day, where the Christmas tree is a beloved part of the Christmas season.

Mr. and Mrs. F. Long Sixty Years Wed

Residents of the Landoville district and the town of Vermilion celebrated the 60th anniversary of their wedding on Monday, December 26th.

The celebrated couple were married in Oklahoma in 1901, and moved to Canada in the year 1918. They came directly to the Vermilion district where they carried on farming quite successfully.

Grand Champion Turkey Brings \$40 At Annual Show and Sale

The Vermilion Standard 431 Turkey Club's 13th annual show and sale was held in the Hotel Vermilion, December 18th. Forty members exhibited 170 turkeys, and about 100 additional birds for sale. The show attracted a new membership in 1961, a record compared with the 1959 entry 14 and total sales \$220.00 as in previous years.

Mr. Tom Adams, Federal grand champion, was the grand champion and received the additional birds for sale. Two birds were also being raised to grade up in standard.

Loraine Trevel's team and her assistant grand champion, the 18 pound hen, were the grand champion of the show. Following the judging, Mr. Adams discussed his plans for starting the birds. As soon as the birds are ready, 431 members held a dinner of 431 dressed birds and gave red wine.

At 2:00 p.m. Mr. Clarence Long declared the 1961 high bidder. Loraine Trevel's grand champion hen brought the highest price of the day, going for \$100.00. Canada Packers Inc. party dealers. Agricultural Society Reviews Activities For Past Year

Tigers Lose Free-Scoring 8-5 Tilt to Bonnyville

Hope of the Tiger fans rode high all the way to a thrilling second period on Monday Day afternoon when the locals had come back from a 3-1 deficit at the end of the first period and looked as if the Pontiacs were back in the game to win. The Tigers ran out of their own zone and took the game against the Pontiacs four out of them down into the zone and from the length of the ice they charged back and were pulled for an extra forward in a desperate attempt to tie the game. The game ended in a 5-8 loss to the Bonnyville team.

Catholics Approve Separate School

V. N. S. Alumni Gathering An Exceptional Success

The first alumni gathering of the alumni of the Vermilion high school was held in the school auditorium on Friday evening, Dec. 29th and proved a very successful event. It was quite surprising the number of grade attracted to the fine building which now serves as the high school, a building which quite overflows with which served them when they were in their school days.

There was a gathering from all through the lines, with a heavy concentration of grade and high school graduates. It was the first time since '05 and '06 being particularly numerous.

Income Tax and Innocence

Do you understand yourself by keeping accurate and complete records of all items business expenses for your income tax returns? A. B. Weir, auditor with the Alberta Department of Agriculture, stresses the importance of this practice cannot be over-emphasized from the point of view of eliminating the possibility of a re-examination by the Income Tax Department.

In many cases failure to keep records is due to mis-remembering income tax requirements or to carelessness. However there is always the danger that incomplete records could be interpreted as an attempt to evade taxation.

The Exchequer Court, which is the highest court in the land dealing with income tax matters, has reported numerous cases of farm accountants that have been in a haphazard and incomplete way. In some instances it was felt that the farmer understood his operating expenses but had omitted to record money received from grain and cattle sales. Where Board payments, etc. A penalty and a higher income tax assessment was imposed in cases where the Court did not believe the farmers' explanations for his omissions and where it was felt that he intended to evade taxation.

Value of Education

In terms of personal cash income a high school education returns about 10 per cent annually, and a four-year university education returns 12.5 per cent annually, according to Dr. Malcolm Taylor, principal of the University of Alberta.

On a national scale a major part of the increase in gross national product can be traced to the upgrading of education and skills of the labour force. Accumulation of intellectual capital, Dr. Taylor declares, is comparable in importance, and in the long run perhaps more important.

Recreational Facilities Best In Canada

First Hockey Game in the New Stadium Will Be Held This Friday Evening, January 12th

Vegreville Rangers and Vermilion Tigers To Inaugurate Western Canada's Most Modern Ice Palace

Vermilion's New Stadium, Featuring Infra-red Heating and Artificial Ice

Recreational facilities in Vermilion reach a grand culmination on Friday evening when the first hockey game will be played on artificial ice in the new quarter-million dollar stadium.

This is the first community-owned stadium with artificial ice plant in north-eastern Alberta, and one of the very few in any town in the West—another first for Vermilion.

Hockey facilities in the stadium are unsurpassed. The ice surface is the largest regulation size—125 feet long and 85 feet wide. Dressing rooms for the teams are fully equipped. There are enough lights in the stadium to light up the business section of a town the size of Vermilion. Spectators watch the games in comfort, as the seating area is heated by means of infrared heaters.

This grand culmination to recreational facilities was made possible by a community wide effort. The Council and the Chamber of Commerce are proud of the wide range of recreational facilities provided, which contribute greatly to the happiness, health and contentment of citizens of the town and district.

Vermilion Golf Course
 Unsurpassed is Vermilion's beautiful and sporty nine-hole golf course. Rolling fairways, well-kept greens, beautiful shrubs, and a comfortable club house combine to make this a golfer's paradise.

Vermilion Provincial Park
 Swimming, boating, picnicking, sunbathing, fishing—all are offered at the Vermilion Provincial Park. Heavy spots abound and miles of lakeside footpaths delight the motorist and the equestrian. Every facility for enjoyable outdoor living is provided. In the park, both houses, conveniences, picnic grounds, and a swimming pool are available. The bathing is supervised by lifeguards and a swimming instructor is available every summer.

Six-Sheet Curling Rink with Artificial Ice
 Curlers, both ladies and men, enjoy the best of curling facilities. Six sheets of artificial ice are housed in a comfortable building which, due to its construction, seldom becomes warmer than 15 above. A commodious waiting room offers ample spectator accommodation, and lunch room facilities.

Kinsmen Kiddies' Wading Pool
 A large wading pool provides fun for all ages. The pool is supervised by lifeguards and a swimming instructor is available every summer.

Local Teams Rout Paradise Valley

Paradise Valley boys' basketball team was forced under the wire here Friday night when V.H.S. Marauders outplayed and outscored them, 43-36, in the final game action of the season on the local floor.

Bob (Buck) Pate led the Marauders with 24 points to join the rummy P.V. guard in their first loss of the season. Murray Jones, who led the net for 10 points, and "Spurrier" Murray, putting in four buckets and a free shot, added the Marauders' consolation points of the game.

The STRAIGHT VICTORY Marauders' seventh straight basketball victory, which seemed sure after a dismal start when P.V. led the scoring for several minutes. Even though the Valley boys were playing for the rebound percentage, which has amounted to about 30 percent, the Marauders' defense and their opponents under the basket.

Normal team game and standing performance at the five draw game. Marauders were awarded 10 free shots of which only five found their way through the net. The P.V. percentage of 30 per cent was a little better than the 20 per cent of the 14 draw game.

Go, Tigers, Go!

An ideal place to hold social events, dances, card parties, meetings and displays is this commodious hall in the second story of the Stadium. It is attractively decorated and finished with a tile floor. A long line of windows overlooks the ice surface, making it an ideal spot from which the watch the Tigers go-go-go.

Tigers Bow to Darts In Torrid Game; Final Score 5 to 4

Vermilion Tigers looked like winners most of the way but were then badly shaken out by the St. Paul team which pulled out a last period rally to win the game, 5 to 4. The two teams played a good game of fast action, leading some solid periods with hits landing on more than one occasion.

The decisive move of the First United Church W.A. was made in the fourth period when the Tigers pulled out a last period rally to win the game, 5 to 4. The two teams played a good game of fast action, leading some solid periods with hits landing on more than one occasion.

Kinsmen Club of Vermilion Rightfully Proud of Its Role in the Community

The Kinsmen Club of Vermilion strongly urged the construction of a new arena for the town several years ago. The idea was not met with wild enthusiasm by other community organizations, but when the district through the town, and other organizations became interested in the project, Kinsmen stepped in with all their strength, and results to date show a cash donation of \$8,400.00, plus the purchase of valuable tables costing \$250.00.

Behind the humble facade of the Kinsmen, the club has been busy for years. It has been the first to start the annual hockey fund drive, which has raised the money for the building of the arena. It has also been the first to start the annual fund drive for the purchase of the arena, and it has been the first to start the annual fund drive for the purchase of the arena.

Important Problems to Face Alberta Legislature; Big Cuts in Expenditures

By Ken Martin

EDMONTON—The head government departments and their ministers have been hard at work these past few weeks, preparing a first draft of their spending for the next fiscal year.

Provincial Treasurer Ted Hume reported last week that the first draft has been completed, and was to go before the cabinet for consideration this week.

Hume rather impatiently questioned how the cabinet ministers as they begin perusing over the budget estimates. "The estimate is a new thing and must drastically in order to hold the line and put a stop wherever possible to the increase in provincial spending."

He said it is a matter of fact that the government will be making up for the 1961-62 fiscal year. The government will be making up for the 1961-62 fiscal year.

HOW MANY KEEP THEIR SAVINGS IN A BANK?

Probably all of them! There are 10 million savings deposit accounts in the chartered banks; by far the most popular type. They are used by all sorts of people—wage earners, businessmen, housewives, farmers, students—who know their money is safe, earns good interest, and is available whenever needed. And they like the efficiency and courtesy of the men and women who serve them/Your nearest branch is the place for your savings—and the one place you can get all your banking.

Better Freight Rate Deal Forecast for Alberta

By KEN MASON

It looks as though the Alberta Government has secured a major triumph in the five-year-out battle to get the province a better deal on railway freight rates.

This is Premier Manning's reaction to recommendations in the report of the MacPhee Royal Commission on Transportation, made public last week.

He referred to suggestions made by the commission for regulating the so-called "captive traffic" rates on non-compulsive hauls to the prairie provinces.

President Reviews Work of Chamber Of Commerce At Annual Meeting

The following is a report of the president's address given by Mr. E. C. Clendenning, president of the Vermilion Chamber of Commerce for the past year.

It now comes upon me to give the President's report covering the activities of the Chamber for the year ending in 1961.

I have been honored to be your president, and incidentally, the first president of the Vermilion Chamber of Commerce.

I have taken office just a few weeks ago, and I am sure that you will find me to be a very busy man. I am sure that you will find me to be a very busy man. I am sure that you will find me to be a very busy man.

Rotary's 57th Anniversary

Forty-seven years ago, the Rotary Club of Vermilion was organized. It was the first of its kind in the world. The 57th anniversary of the founding of this club was celebrated by more than 11,000 Rotary clubs all over the world.

It was in Chicago, on February 23, 1905, that this organization was born. Paul P. Harris, Rotarian, gathered with some business associates in the city of the great lakes to discuss the possibility of a new type of service organization.

For their devotion to the idea of being thoughtful and helpful to others, we salute the Rotarians of the world, and wish them still greater success in their program of service.

Dawberry Suffers Greatly From Loss of Old Times

Dawberry and district had suffered greatly from the loss of old times. The death of V. Dennis calls for the passing on to their eternal reward after a long and old time.

The Toll of the Road

Two hundred and seventy-seven persons died in motor vehicle accidents on Alberta's roads last year, the provincial highway department reported recently. The toll was 10 per cent less than in the year before.

Padded Dashboards and Seat Belts

There has been an alarming increase in facial injuries and head injuries caused by the manner of driving. The use of padded dashboards and seat belts is a definite improvement.

MAKING GEORGE LOOK LIKE A PRINCE

George, the mascot of the Vermilion Standard, has been made to look like a prince. The new design is a great improvement on the old one.

Mr. and Mrs. Louis Taylor Observe Silver Wedding Anniversary

A very pleasant affair took place at the home of Mr. and Mrs. Louis Taylor on the eve of Feb. 21 when their daughter Madeline arranged a party for the occasion. About twenty relatives and friends were present. The bride and groom were seated at the head of the table. The bride wore a lovely gown of silver and the groom wore a tuxedo. The party was a most enjoyable one and the evening was spent in the company of friends and relatives. The bride and groom were both well and happy. WET FOR CALIFORNIA resulted from the restriction shown in this aerial view. Photographed near Lethbridge, Alberta, during building of the Alberta-California natural gas pipeline in the winter of 1961-62. Cold air has condensed moisture rising from freshly turned Alberta earth and from Low Creek, which runs from the Rocky Mountain foothills (left) onto the prairies. Builders were preparing the creek crossing for The Alberta Gas Trust. Lethbridge Limited's service of the 1,100-mile pipeline to San Francisco.

Team Work Personified

It takes team work, co-operation and community spirit to carry out an event such as the 25th annual tournament on Saturday of last week. Over 1000 persons took part as much organization, twice the number of volunteers, and the players are that to be managing such a well run and highly successful event. This tournament provides a lot of fun and a chance for the players to play their favorite game under ideal conditions and to meet and greet the other players. It attracts a large number of people to town and is one of Vermilion's top three events of the winter. Well done, Team!

National Health Week

Once again the Health League of Canada announces the observance of National Health Week in Canada. This week will be observed for the 18th successive year during the week of March 11-15, 1962.

Of recent years, the observance of National Health Week for this or that has become popular. But National Health Week is probably the oldest and certainly the most widely observed and the most important of all—not only in Canada but in the world—and why? Because it is a week when we are reminded that human beings are not just a collection of organs and muscles, but that they are human beings first and foremost. It is a week when we are reminded that the health of the individual is the health of the community and that the health of the community is the health of the world.

For too many of our citizens, the only time one gives thought to the importance of health is when the doctor has advised that the doctor after we have become sick. For too few of us think of the thousands of deaths of unnecessary sickness in terms of money, of the thousands of lives that are lost through unnecessary sickness. For too many of us, science has been the cause of many of our troubles, and we have become too busy to take time to think of the health of the individual and the health of the community.

General Advice on Wills

The Alberta Department of Agriculture's solicitor A. B. Wray, strongly advises everyone to make a will and have it properly drawn up by a lawyer. He stressed that many a will, which often serves as cause where the person has previously made a will, could have been avoided if the advice of a lawyer had been sought.

For instance a man could provide in a holograph will that is written out by hand for a gift of land. In another provision, to go to his last friend. If, however, the laws in that province did not allow a holograph will, the document would be considered to have died without a will with regard to the gift and the beneficiary would get nothing. There are many other legal problems that can arise as a result of a will, and a lawyer's advice is essential to avoid such problems.

Mr. Wray says that lawyers and judges often have to deal with the same problem and that the same problem can be avoided if the person making the will had had the correct information and advice. It is not unusual for the value of an estate to be unnecessarily diminished by court costs involved in settling out these problems.

By contacting a lawyer in the beginning, you can get advice on the advantages and disadvantages of making gifts during your lifetime, on the various methods of giving gifts, on a will, on joint tenancy, on the value of farm incorporate in certain cases and on the selection of an executor for your will and a power of attorney for any children who are still minors at the time of your death.

Delayed Nurse

The regular monthly meeting of the Vermilion Hospital Board was held on Wednesday, April 11th. Mr. J. H. Macdonald, president of the board, presided. The board was informed that the new nurse, Miss M. J. Macdonald, who was to have arrived during the afternoon of the 11th, had been delayed by a few days. The board decided to postpone the meeting until the 12th, so that the new nurse could be present.

Hazeldine W. L.

The regular meeting of the Hazeldine W. L. Club was held on Wednesday, April 11th, at the home of Mrs. J. H. Macdonald. The club members discussed the progress of the club's activities and the work of the new members. The meeting was held in a friendly and social atmosphere.

Bowtell Bulletin

Phyllis attended church on Friday at Pleasant View. She was very happy to see her friends and to hear the service. She was also very happy to see her new friends who had just moved to the area.

Whitmore Wins

Spring must be getting near. The weather is getting warmer and the flowers are starting to bloom. The Whitmore family is very happy to see the spring weather and to see their children playing in the yard.

OUR NEW MANAGER, comes to us from Red Deer, he has spent practically all his life in the Co-op movement, the past nineteen years in store management.

In addition to his five years in Red Deer, he was manager for eight years at the Waterfront Co-op, which period was preceded by six years of Co-op management with Federated in Saskatoon.

... and Goin'

Jack Cochran, from whom Dave Gill takes over as manager of our Vermilion Co-op, is going to Calgary to the position of District Representative for Federated in that territory.

Jack Cochran

Jack, a comparative newcomer to the Co-op movement, has had 7 years experience with our organization, joining the Co-op as manager of the Brougham (Edmonton) store in 1955. From there he went to Vernon, Manitoba, to manage the store there until he moved to Vermilion in February of last year.

Jack hasn't spent all his time at the store, as he and his good wife are the proud parents of three fine children.

Jack and his wife have three children. The oldest is a son, the middle is a daughter, and the youngest is a son. They are all very happy and healthy.

Annual Meeting

This is your opportunity as a Co-op member to assist in forming the policies that will govern your co-operative in the coming years. Here you can learn the results of last year's operation and cast your vote in electing your officers. PLAN NOW to be in the

United Church Lower Hall at Noon

to partake of the luncheon which will be prepared. Your Co-op needs you and your opinions.

Be Sure to Attend . . . You'll be Glad you Did!

Will Call Nominations For Vegreville S. B. Board Sat

The resignation of Miss C. M. Smith, trustee of the Vegreville S. B. Board, was accepted with regret by the board. The board has decided to hold a meeting on Saturday, April 14th, to elect a new trustee.

Changing Customs

Although the basic idea of the service is to provide a means of communication between the two sides of the border, the service is also a means of providing a means of communication between the two sides of the border.

## Local Appeal

### \$1,000.00

May in Vermilion means, among the Salvation Army's annual Red Cross local committee, once again the spirit of giving is in place. With a year's residential cruise on the coast, the committee has just received record amounts and realized a second annual committee is again looking forward to the year's work. Encouraged by last year's report of \$1,000.00 for the Red Cross, the committee in North Carolina Alberta and in there particularly grateful to all who are able to give, and to all the help they have. About this year's appeal, he has this to say:

"The committee, that all the Vermilion folk who work and make donations for The Army and Navy, and to all the help, gives their kindness brings in many of the less fortunate in our city. However, I do see some of this happiness, and this privilege of giving, and this happiness."

## The Standard's Column of F.U.A. NEWS

Not only the underdeveloped nations of the world receive aid from countries like the United States and Canada, writes the F.U.A. The French Minister of Agriculture recently estimated the "food cost" policy followed in Britain, West Germany, Japan, Sweden and Switzerland cost the main agricultural exporters the United States, Canada, Argentina and France about \$100 million a year. That is only one figure and the body considers British, West Germany, Japan, Sweden and Switzerland to be underdeveloped nations in the common sense of the word. Yet farmers in other parts of the world who in Canada are and have been supporting them year after year, leaving them for their production they are entitled to.

During the war when Britain was at the mercy of the Germans, Canadian farmers did everything possible to produce food for Britain at administrative

## TAKE A STAND FOR TOMORROW.

Vote The Liberal Team

**BOB JONES**  
Liberal Candidate, Battle River - Current  
line has been actively interested in education, industry and national affairs.

**WE NEED A MILLION NEW JOBS.** 415,000 Canadians, on average, have been out of work every day since July 1957. We are making less - real income per Canadian is smaller - than six years ago. This waste and suffering of people did not have to happen. It must not be allowed to happen again.

The right government policies can get things moving and keep them moving... The Liberal party is pledged to full employment. Its policies are based on an expanding economy.

An expanding economy will create the million new jobs our growing population needs for the next four years.

You can take a stand for better jobs and greater opportunities in Canada... vote for your Liberal candidate on June 18.

**Final Payment by Wheat Board NOT A Subsidy**

Many people think that the final payments made by the Wheat Board are some sort of subsidy from the government to the farmer. Even when government ministers state that these payments are not a subsidy, the farmer is not convinced. The final payment is not a subsidy because it is not a gift. It is a payment for a service rendered. The farmer has sold his grain to the board and the board has sold it to the world. The board has incurred a loss in the process and the final payment is a reimbursement of that loss. It is not a subsidy because it is not a gift. It is a payment for a service rendered.

**Why Monday To Vote?**

Why did Prime Minister Diefenbaker choose Monday, June 18th for the election? What's wrong with Tuesday, Wednesday or Thursday? The answer is that the Ontario and Quebec elections are held on Monday and Tuesday. The federal election is held on Wednesday. This is a tradition. It is not a coincidence. It is a tradition that has been followed for many years. It is a tradition that is not likely to change.

**World Shortage of Doctors**

According to the latest figures received by the Health League of Canada, there are approximately one million and a half doctors in the world. This is a shortage of doctors. **Visitors are coming... Let's be friendly!**  
Vacationers spent more than \$70,000,000 in Alberta last year. This year will be bigger and better if we are all more FRIENDLY, HELPFUL and COURTEOUS.  
The year-round beauties of foothills, prairie lakes and pastures and the Canadian Rockies make Alberta an all-year playground with skiing in the winter and hunting in the fall leading to the event-filled summer months.  
Tourists are YOUR customers - whether or not they're satisfied customers is YOUR business. Your business grows in volume and prosperity if you're friendly to your visitors here, prolong their stay, return again, and recommend Alberta to their friends.

## VOTE FOR ALBERTA—JUNE 18

In 1952, 67.8% of eligible voters cast ballots in the general election. In 1957 this rose to 75% and in 1960, 80.5% of the 8,131,200 eligible voters cast ballots. This last figure is most creditable indeed but leaves no room for complacency. Even with this high rate of participation, there were still more than 1.5 million Canadians who failed to exercise the franchise on March 31, 1960. There is still a lot of room for improvement.

This is the challenge that faces us today as we approach another election on June 18th. Here is another level of the reality of democracy. Here will be counted, once again, the responsibility of exercising that right. A continued effort must be made to ensure as close to full participation as possible.

During the next two weeks, Canadians will be constantly reminded of the responsibility, privilege and opportunity which is ours: 1) to be informed concerning the issues and candidates; 2) to make sure that our name is on the list of electors; and 3) to vote on June 18th. —Vernon News

## GREEN ACRES

By: H. MORLEY DOUGLAS  
District Agriculturalist

**VERMILION**  
A number of farmers in the Vermilion area are planning to plant a large number of green acres in 1962. This is a very important step in the conservation of our soil and water resources. The use of green acres helps to prevent soil erosion and improves the fertility of the soil. It also helps to conserve water by reducing the need for irrigation. Farmers who plant green acres are helping to ensure a better future for their land and their families.

## Medical Care for ALL Canadians

Canadians have been denied a broadly based medical care plan for years by Liberals and Tories.

**Now a REAL health program is possible.**

New Democrats advocate a plan to be administered by the provinces in co-operation with the federal government which will contribute 60 per cent of the cost.

**IT WILL PROVIDE:**

- Coverage for all.
- Comprehensive medical services.
- Freedom to choose own doctor.
- No interference with the practice of medicine.
- Major emphasis on prevention.
- Promotion of medical research.

## Over 100 Aftand Mother and Daughter Supper

Well over one hundred mother and daughter suppers were held in the city of Vermilion on Wednesday to enjoy a very delicious pot luck supper.

Brownie Lutz McDonald said that the Mothers' Association acted as chairman for the evening. The supper was held at the home of Mrs. J. McDonald.

The mothers were given by the Mothers' Association a very special gift. The gift was a book of poems and a book of prayers.

HOW MANY PAY THEIR BILLS BY CHEQUE?

Nowadays most people do—because almost everybody has a bank account. Writing a cheque is safer than carrying cash and a time-saving and convenient way to pay bills. Every banking day Canadians write three million cheques, an increase in the past 10 years of more than a million a day in the number flowing through the banking system. This up-to-date cheque handling service makes possible the convenience you command every time you use your cheque book.

## Blood Donor Clinic Canvass Completed

During the past two weeks, urgent as well as the supply of blood is desperately low. The blood donor clinic at the Vermilion branch of the Red Cross, which was held at the Legion hall on June 28th, was a success. The clinic was held from 9 a.m. to 4 p.m. and 7 to 9 p.m. There is no definite word yet as to when the next clinic will be held. The blood donor clinic is a very important service. Without it, the hospital would be unable to carry out its duties. The clinic was held at the Legion hall, which is a very convenient place for donors. ## Alberta Law Now Forbids More Private Cemetery Promotions

New private cemetery developments are now prohibited under an amendment to the Cemetery Act passed by the Alberta Legislature. All new cemeteries from now on will be opened by municipalities, religious denominations or religious societies.

The amendment prohibits such operations as the Fairview Memorial Gardens which was promoted at Vermilion and Lloydminster just over two years ago.

For ELLEN a pair and while in the cemetery a large number of plots were sold and sold for in the cemetery. The plots were to be sold for in the cemetery. The plots were to be sold for in the cemetery. The plots were to be sold for in the cemetery.

## BEST WISHES TO CRAIG'S

### on the OPENING of the NEW FOOD FAIR

Phone 36 Building Materials Vermilion

## Architect, Contractors, Tradesmen, Suppliers Unite Efforts To Make Dream of Craig's Come True

Back in 1919 when the present big brick store of Craig Brothers was built, the founders of the business, John and Chas. Craig, had dreams of a much larger building, but being on a corner they were confined to their original property of one town lot. Now, 43 years later, the dream of a store with 80-foot frontage has been realized with the acquisition of the former Remond & Casey hardware property.

By this move, 3000 square feet of floor space has been added and all of this has been devoted to Craig's new Food Fair. Architects, contractors, tradesmen and suppliers have combined to blend the two stores into one big happy place. A large kitchen provides many and convenient services from the new Food Fair to the dry goods and ready to wear departments.

## 44 Non-Advertised Specials in Other Departments

To help celebrate the grand opening of the Food Fair, Craig's are offering forty-four non-advertised specials on sale in other departments. These specials have guaranteed savings of at least 20 per cent and are available at the Food Fair opening a store-wide event that will be continued as a shopping opportunity for the busy buyers.

## Five Hampers Each Day Free

The lucky shopper will win a \$10 hamper of groceries each day during the opening of the Food Fair. Each customer enters Craig's Food Fair by purchasing a \$10 hamper. The hamper is drawn at 11 a.m. each day. The lucky person will be at the store at the time the draw is made. They will take home a \$10 hamper of groceries. Every time you enter the store, you enter the draw.

## Three Check-Outs For Quick Service

Just in case you are worried about waiting in line during the big rush at Craig's Food Fair, we have provided three check-outs in operation. They are as follows: 1. At the main entrance. 2. At the rear entrance. 3. At the side entrance.

## Craig Bros. Store

### Founded Aug. 1905

Craig Bros. Ltd., one of the few businesses which has operated continuously under the same management since its inception, is this week celebrating another year in the progress of this enterprising western Canadian business firm.

The ex-founders, John and Chum Craig, traded in the Vermilion territory and started the local business here in August 1905. From Vermilion the business was expanded to include stores at North Battleford and then at Prince Albert.

The Craig name has been in existence since the history of Vermilion and district could not claim any other. The Craig brothers were joined in the business in the July 31st. Albert M. West, who passed away in 1950, and in the June 29th of 1951, when their son, John M. West, who died in 1951. Together with their sons, they have been in business in Vermilion, that being the best of merchandise in the most convenient manner.

The latest mark of progress is the firm is the acquisition of additional property and the expansion of the Vermilion business by some 300 square feet of floor space. This has been transferred into Craig's Food Fair a vibrant landmark for the food shopper. Nothing has been overlooked in the very of convenience or in the supply of top quality food merchandise kept under the most perfect of refrigerated conditions.

Craig's have always demonstrated through the 57 years progressive years they have been in business in Vermilion, that nothing is too good for the customer.

It is noteworthy that members of the firm of Craig Bros. Ltd. have always been continuously-minded with the result that so far that three generations of the best store have been provided. Board of Trade now known as the Chamber of Commerce. These citizens were John Craig, the late Albert West and the late James Stewart. They were all active in every phase of community life, financially, educationally, socially and in organizations.

**ROUSES TO THE LADIES**  
The first lady to visit the store each day will receive the most convenient manner.

**ALBERT M. WEST**  
The late Mr. West was a director of Craig Bros. Ltd. and a manager for many years of the Vermilion store. He passed away in 1950.

**C. M. HENDERSON**  
Director of the Company of Craig Bros. Ltd.

We are proud to have had a part in the building of this very fine new store.

Our part of the construction included winch work on the steel beams, and excavation for the basement area.

## Golden Age Friendship Club Gets Big Surprise

On Saturday afternoon, July 14th, a very pleasant ceremony took place at the Vermilion Standard office when Mr. Al Hodgson, Chief Ranger of the Canadian Order of Foresters, presented Mr. W. W. Walderberg, president of Golden Age Friendship club, with a cheque for \$50 towards the club's amplifier and microphone.

Mr. Hodgson, in presenting the cheque on behalf of the C.O.F., told Mr. Walderberg that the Order was very deeply impressed with activities of the Golden Age club and wished them every success for the future. He thought a club of this kind was a wonderful inspiration and sincerely hoped that all the senior citizens of Vermilion and district would take advantage of all the opportunities had to offer. He stated that it was an honor and pleasure to be able to hand over the C.O.F. to make this donation to such a worthwhile cause.

Mr. Walderberg, on behalf of all the Golden Age members, sincerely thanked Mr. Hodgson and the C.O.F. for the cheque and the gift. He stated that the club had been experiencing much financial difficulty and that the cheque was a great help.

The amount of the club has been added to the fund now on hand. It is hoped that the \$50 in hand is needed to reach the \$250.

### PFRA Display At Vermilion Fair

July 26, 27 & 28

One of the more interesting and colorful displays at the Vermilion Fair, which is the highlight of the fair, is the display of the Department of Agriculture. The display is a model of the Prairie Farm Rehabilitation Administration (PFRA) and is a very interesting and informative display.

The display is a model of the PFRA and is a very interesting and informative display. It shows the various projects and programs of the PFRA and is a very interesting and informative display.

The district has just elected another board and today morning everything new looks from and enjoyable day travelling to these areas and creating the beautiful scene there on the ferry as we travel across the river. From there they went to Fair Park and then to the fair where they were to see the fair.

Karen Prasad is staying at the Pleasant Valley farm during the summer. She likes to get out into the farm where she can enjoy the beautiful scenery. She is a very nice person and is very helpful to the community.

of this year, the child receives \$6 each month as an incentive each year. The remainder is used for portable food and new clothing, per diem translations of letters, medical services and education. Because each child is treated as an individual, any special needs of the family are taken care of by Plan B when the general fund is exhausted. Plan C is a special fund made up of contributions from the public.

To encourage a warm, personal relationship between the foster parent and the child, the foster parent receives a library of the child and a photograph, and upon the child's return, the Plan office is translated both ways.

**A Tribute To Clarence Barr**  
Clarence Barr, king of the flashing blades and true sportsman. Let the record tell and the story — how he always played the game properly — a clean sport — with never a dirty move made. This is one of the attributes we need to hold sacred and unassailable in those times when we are tempted to cheat and win the game by the prize money.

**Squeeze On Credit**  
There will be a big squeeze on credit in the very near future unless the Bank of Canada reverses its existing policy. Already interest rates are sharply higher than the most liberal indications are that credit will be available in the near future. The Bank of Canada is now holding the line, but the squeeze is already underway throughout 1961 it was expanding the credit and encouraging new loans.

**Farmers Cash Income Down First Three Months of 1962**  
Farmers' cash income from farming in the province of Alberta for the first three months of 1962 has declined by 10 per cent from the same period in 1961. The decline is due to a combination of factors, including a decrease in the price of grain and a decrease in the yield of grain.

**BETTER CHECK THAT FOUNDATION, TOO!**  
The foundation of a building is the most important part of the structure. It is the base upon which the entire building is built. If the foundation is weak, the building will be unstable and may collapse. Therefore, it is essential to check the foundation of a building before it is built.

The seven quality steers shown above are those purchased by Craig's Food Fair during the annual 4-H Club Sale at the 1962 Vermilion Fair. This Red Ribbon beef is on sale in Craig's new ultra-modern pre-packed meat department all this week at regular prices. It is going very quickly, so we suggest that you shop early. We would like to take this opportunity to congratulate the Manville, Preston and Vermilion 4-H Beef Clubs for the splendid job they did in preparing their animals for this show and sale. Particular congratulations go to Stanley Stewart of Vermilion, who raised, fed and showed the Grand Champion.

Shown above are the seven calves from the fair which are on sale at regular prices in the Food Fair. Left to right, the calves were fed and shown by: Bill Poldak, Manville Club; Shirley Sharpe, Manville Club; Karen Stephenson, Manville Club; Byron Hart, Vermilion Club; Evan Hughes, Preston Club; Kenny Lichak, Manville Club; Stanley Stewart, Vermilion Club, Grand Champion 1962 4-H Club Show.

## Vermilion Fair Success Despite Rain

Seventy-seven Exhibit Calves in Successful 4-H Club Show

The once controversial stadium saved the 1962 edition of the summer fair. Yes, two years ago the community of Vermilion experienced plenty of controversy over whether or not to build a quarter-million-dollar stadium on the fair grounds. When the stadium was built it was destined to play the role of a giant over police and exhibit hall at the fair grounds. It served this role in 1962, and did more. Saturday the rain was coming down steadily and there was literally no one at the fair. At 4:00 p.m. the work crews moved into the stadium, moved out cattle, scrubbed the place down and then evening 2,400 paying customers walked the Tom Drake grandstand show house. Secretary-Manager Carl Heidecker showed that it wasn't as much the extra money as it supplied a show for advance ticket holders.

Carl is being succeeded by J. Mad. Alberta's Livestock Commission and beef cattle commission the efforts are not so well done and said that several of the Vermilion Standard staff and several of Vermilion Agricultural Society.

## One Happy Afternoon

WALLINGTON, N.Z., Dec. 14 (AP)—All those

with exception of Mr. Harrison, who were farm boys. The Battle of Britain in the afternoon Mr. Fursi, a powerful singer, entertained the gathering with favorite and old time songs. He was emceed on the piano by Mr. Harrison.

On the holiday trip Mr. and Mrs. Harrison were the center of attraction. For invitations. Many pictures were taken of the happy group. When the time came to leave, all the guests enjoyed the trip. Afternoon and after many expressions of appreciation to Mr. Harrison, George and Sandra, everyone departed on their home-bound ways.

Hope to see you all again soon. Polka.

# Inter-Provincial 4-H Club Visits Planned for 1963

Young people living in various parts of Alberta, and even extending beyond, are spending two weeks on farms in other provinces of Canada next summer. These are the first 4-H club members who were selected to take part in the inter-provincial 4-H exchange which will be launched next year. Each province will select nine boys and girls between the ages of 16 and 21. They will be assigned to farm homes in each of the other four provinces during the early part of July next year. During their two-week stay they will work with the host families and attend district and provincial 4-H activities.

## Decline in Ducks Seen Lower Bays

Decline in ducks has been noted in the lower bays of the St. Lawrence River, according to a report from the St. Lawrence Commission. The report states that the number of ducks has declined in the lower bays of the river, particularly in the area of the St. Lawrence Commission. The decline is attributed to a variety of factors, including changes in the river's flow and the presence of predators. The St. Lawrence Commission is currently conducting research to determine the causes of the decline and to develop strategies to protect the ducks. The report also notes that the decline in ducks has been observed in other areas of the St. Lawrence River, including the area of the St. Lawrence Commission.

### Install Elaborate Silencing Device On Vermilion Power Plant

Canadian Utilities engineers have designed and installed an elaborate silencing device for the power plant at the Vermilion power plant. It was announced this week by officials of the company. This will be the first of its kind in the world. The device is designed to reduce the noise level of the power plant to a level that is acceptable for the surrounding community. The device is a large, rectangular structure that is installed on the roof of the power plant. It is made of a special material that absorbs sound waves and reflects them back into the plant. This reduces the noise level of the plant to a level that is acceptable for the surrounding community.

### Vermilion Valley Lodge News

Many thanks to Mr. and Mrs. J. R. Robertson, members of the Vermilion Valley Lodge, for their generous donation of a new set of tables and chairs to the lodge. The lodge is a very active organization and is always looking for ways to improve its facilities. The new tables and chairs will be used for the lodge's regular meetings and for special events. The lodge is a very important part of the community and is always looking for ways to improve its facilities.

**Gideon Official Is Vermilion Visitor**

The Gideon Official, a member of the Vermilion Valley Lodge, visited the lodge on Thursday, September 6th. He was accompanied by his wife and daughter. They spent the day at the lodge, looking at the new tables and chairs and talking to the lodge members. The Gideon Official is a very active member of the lodge and is always looking for ways to improve its facilities. He is a very important part of the community and is always looking for ways to improve its facilities.

### Sells Farm At Landonville

The many friends of Mr. and Mrs. J. R. Robertson, members of the Vermilion Valley Lodge, were invited to a farm sale at Landonville on Saturday, September 12th. The sale was held at the home of Mr. and Mrs. J. R. Robertson. It was a very successful sale and a large number of items were sold. The sale was a very important event for the lodge and its members. ### PUBLIC NOTICE

#### TO THE RESIDENTS OF THE TOWN OF VERMILION

It has been recommended by the Provincial Department of Health that the town water system be chlorinated to remove the accumulation of iron which was built up in the system previous to the installation of the Iron Removal Plant.

**THIS PROGRAM WILL BE CARRIED OUT ON SEPTEMBER 20th and 21st, 1982. IT WILL BE NECESSARY TO MAINTAIN STRONG CHLORINE SOLUTION IN THE WATER MAINS FOR SEVERAL HOURS.**

The chlorine solution used is non-poisonous, but has a strong odor and taste. Residents are advised to draw sufficient water for drinking and cooking purposes for this period.

More detailed information will appear in later issues of The Standard.

## CO-OP MEMBERS

Enjoy Real Savings and Service

### CO-OP MEMBERS SHARE IN THE SAVINGS

Co-op members are consumers just like you and me! They have pooled the power of ownership and have used it to their own advantage.

### A CO-OP IS MORE THAN JUST A STORE

You can feel the difference as soon as you enter The people who shop here are more than consumers. They are all friends and neighbors — people who have decided to share the benefits of ownership with one another. Co-op members always enjoy getting together — especially at their own store!

### CO-OPS HELP COMMUNITIES GROW

In any business, it's the owners who benefit the most! Your Co-op is owned by the consumer—possibly by a good percentage of the people of your community. Naturally, when so many people can benefit from one business—the community does too!

### CO-OPS ARE DIFFERENT

They're owned by consumers like you and me! The aims of Co-ops are different too, for as consumers themselves, it's the needs of the shopper that come first with these owners. People always benefit through ownership—but even more through co-operative ownership!

**REMEMBER!** For just \$1.00 you can join your neighbors in ownership of the VERMILION CO-OP STORE

### Re: Chlorination of Water Mains

It has been recommended by the Provincial Department of Health that the town water system be chlorinated to remove the accumulation of iron which was built up in the system previous to the installation of the Iron Removal Plant.

**THIS PROGRAM WILL BE CARRIED OUT ON SEPTEMBER 30th and 31st, 1962. IT WILL BE NECESSARY TO MAINTAIN STOPPED CIRCULATION OF THE WATER MAINS FOR SEVERAL HOURS.**

The chlorine solution used is non-poisonous, but has a strong odor and taste. Residents are advised to draw a two-day supply of water for cooking and drinking before 10:00 p.m. on Sept. 15. During Sept. 30th it will be advisable to run all outlets until the chlorine solution has entered all parts of the water system in your house.

WATER MAINS WILL BE FLUSHED WITH CLEAR WATER BY 8:00 p.m. Friday, Sept. 21st. It will then be necessary to run off sufficient water to clear individual services after that time.

If further information is desired, please phone the Town Office, No. 6 and 12 from J. Elliott. Money for the children's prizes was donated by Mrs. J. Doolittle and Mrs. H. H. H.

**Which is the most important leg?**

The answer is obvious. The co-operative organization is like a three-legged stool in that it takes three to make it stand successfully—the wholesale, the retail store and the consumer members. When any of these fail to give support to the others, they topple. Co-op, through ordinary people, working together, can build a secure foundation for their own economy.

# TEXACO FARM TIPS...

PROTECT  
WHEEL TUBES  
INJECTOR  
WITH PERMANENT  
TANK DRAIN

The fuel injectors in your motor can rust from the condensation caused by temperature changes in the fuel tank on your rig. Many operators have pretty well solved this problem by partially draining the fuel tank at regular intervals. Simply drain off about a gallon of fuel through the drain valve at the bottom of the fuel tank. You see some fuel this way, but you also get the accumulated water and other contaminants clear out of the fuel system. The cost of the fuel you drain off is a small loss compared to the repair bills you save at the fuel injector. To obtain maximum trouble-free power from your diesel, to secure steady, trouble-free running at minimum cost, always use Texaco Diesel Fuel. Wherever you find the big logo, you'll find Texaco Diesel Fuel. It's available on prompt delivery from your Texaco Farm Supplier—the man you trust for the efficient provision of all your fuel and lubrication requirements.

**Reduce summer fallow**  
**FALL FERTILIZE YOUR STUBBLE**  
Apply Elephant Brand High Nitrogen fertilizers in the Fall. Give your soil the extra nitrogen it needs to produce the extra plant roots and build extra plant food for early spring growth. Replaces nitrogen taken off with your previous crop. With fall application of Elephant fertilizer you overcome the deficiency that reduces yields on stubble and no breaking. At the same time you increase your profits by reducing extra manure (the only real tax on the land) and it costs money to supply.  
Use the better weather and the extra time you have in the fall to apply high quality results within Elephant Brand Nitrogen Fertilizer. See your dealer for

# Golden Age Club Starts Fall Program with Supper

(Continued from Page 7)

The opening social of the Golden Age Club for the fall season, in the form of a pot luck supper, was a terrific success with the members and guests enjoying the evening to the hilt. The supper was held at the home of Mrs. W. A. Walker, who acted as the main attraction. The members of the club were very cooperative in the preparation of the supper, and the guests were very much pleased with the results. The supper was held at 7:30 p.m. and was a great success. Attending the Big Four Football League banquet last week in Vermilion Friday evening were, from left to right: James Dent, Laurie Bauman, both officials of the Alberta Football League; Clarence Lewis, who coached the enjoyable event; Mrs. Edna Barlow, Edmonton, northern Alberta organizer for ladies' football; Roy Kay of Kildeney, president of the Big Four ladies' football league.

## Banquet, Program, Dance Fitting Climax to Fastball Season

The Big Four Fastball League was fittingly climaxed on Friday evening by a banquet, program of speeches, and a dance. The enjoyable event, held in the Legion hall, Vermilion, was well attended by officials and players of the four league teams, Maidment, Layminster, Kildeney and Vermilion. Special guests included several members of Alberta Fastball League from Edmonton, Mrs. Edna Barlow, a past president and now Northern Alberta Fastball organizer; Mr. James Dent, former vice-president and member of the Vermilion Association; and Mr. Laurie Bauman, secretary of the Alberta Fastball Association and manager of the Edmonton team.

The banquet was presided over by Mr. James Dent, former vice-president and member of the Vermilion Association. He gave a short address on the success of the league and the future of the sport in Alberta.

The program of speeches was followed by a dance. The dance was held in the Legion hall and was well attended by the players and officials of the four league teams.

**9 Out of 10 Homes Could Be Spared**

Every week five families at more than one thousand Canadian dollars in terms of dollars that means a yearly loss under \$600 in damage.

The insurance firms of the three-quarters of all our homes have been in flames. And not only are the hundreds of thousands of homes that are burned and often perished in these fires.

Five rarely, just happen! Nine out of every ten fires are the result of carelessness and thoughtless neglect of simple precautions.

Regardless of the cause, experienced fire fighters say most of the fires that are caused by carelessness. Not knowing what to do, victims are often trapped by their own ignorance. They might have noticed the fire if they had known how.

They didn't know how. So they died. Or they survived, injured and maimed.

Every Canadian in every home can profit by learning the simple means of fire prevention and fire safety.

It is the best and the only way to protect your family and your property.

The cost between families who have fire insurance and those who do not is a killing those who do not. In the insurance industry, it is known that the cost of fire insurance is a killing those who do not. In the insurance industry, it is known that the cost of fire insurance is a killing those who do not.

*Which is the most important leg?*

The answer is obvious. The co-operative organization is like a three-legged stool. It takes three to make it stand: the consumer, the wholesaler, the retailer and the co-operative member. When any of these fail to give support to the others, they topple. Co-op, through ordinary people, working together, can build a secure foundation for their own economy.

# CLEAN GRAIN PAYS CASH!

**ON THE FARM**  
Last Year's Seed Cleaning  
Sets A New Record  
Between July 1st, 1961 and June 30th, 1962, the Vermilion Seed Cleaning Plant cleaned a total of 353,152 bushels of grain.  
This total was third in the volume of grain handled by the 41 municipally owned seed cleaning plants in the province of Alberta.  
Last year's record is a startling increase in patronage at Vermilion in the last two years. In 1959-60, the Vermilion plant's total number of bushels cleaned was only 169,750, and at that time the plant was rated no better than 21st in the total volume.  
Which Sample would You Buy — Seed — Sell?

**AT THE Elevator**  
You are money ahead two ways when you have your grain cleaned here. First, you avoid dockage on elevator declarations at the elevator, and secondly, the screenings remain your property to be taken back to the farm and fed.

## Agriculture in Vermilion District

## A \$30 Million Industry

Recently the members of District 7 of the Farmers Union of Alberta held an annual meeting in Vermilion, and this gave a good reason to remind the people of Vermilion that the farmlands play in the economy of the area.

The figures on two farm products are all that are needed to prove this point. In the crop year ending July 31, 1962, over 200,000 bushels of grain were shipped from elevators within a radius of 80 miles of this town. This does not take into account the tons of thousands of bushels of grain shipped out by truck or fed to livestock in the district.

According to official statistics there are 180,000 head of cattle on the farms in the municipal district of Vermilion. Even allowing for only a 75 per cent crop, and leaving the other 4500 head to allow for losses and having equipment, and averaging the sale price of animals from real values, the average herd value at the very conservative price of \$20.00 per head, the cattle represent an income of \$3,600,000.00 per year, to M. D. Farmers.

Cattle and grain produce a farm receipt of well over 20 million dollars per year, which when added to dairy products, hog and sheep receipts, plus income from such specialties as mushrooms, rice and legume seeds, (farmed in the Vermilion district) have a very impressive aggregate income. These percentages and figures are not far from the truth.

Vermilion stores, garages and all businesses gear their services in the needs of the farmer, of that there is no doubt. Vermilion is a "home town" — maybe a few extra words would be in order.

For instance, last spring a local of the F.U.A. requested that a platform be built in town for the handy hocky hockey team from the farm machines brought here for overhaul and repair. The project has been investigated by the Chamber of Commerce and it is now being planned. The platform will be built. No opportunity should be lost in entering in to our big industry — Agriculture — which can be compared to a man with an annual income of \$200,000,000.00 — which he can spend where he pleases.

The Vermilion Chamber of Commerce spends this all money in trying to attract industry and trade, and rightly so, but let us not overlook our agriculture, which we have, and which will ever be our number one industry, not only in terms of dollars but in human relationships of good-will and friendship.

## Promote Winter Employment

This is the time of the year when business, industry, stores, farmers and housewives of this community are urged to promote winter employment.

No doubt you are willing to do all you can to maintain and increase employment in this area. If not, you are not doing your duty. No doubt you are willing to do all you can to maintain and increase employment in this area. If not, you are not doing your duty.

As a householder, there are many things you can do to help the winter employment situation. Repairs of many kinds can be done in the home. The farmer, however, can do more than just repairs. He can do more than just repairs.

Your National Employment Office can supply you with the needed help to give your business a boost. The office of the year you wish to play in the Winter Industry Campaign.

## Whither New China Wheat Deals?

Resumption of Canada-New China wheat deal negotiations, long to begin any day now, seem certain. Since the Federal Government has agreed to buy wheat, it is looking for more grain to sell. The deal, however, is not yet made. The deal, however, is not yet made.

The deal, however, is not yet made. The deal, however, is not yet made. The deal, however, is not yet made. The deal, however, is not yet made. The deal, however, is not yet made.

Alberta Driving  
Record Worse

Alberta turned into the last quarter of the year with

the worst driving record in its history, the provincial

Transportation Department said today.

The accident and injury toll has crested to new

heights while the death toll is rising over with 1961's

record-setting levels.

To the end of September, the council said, the accident

total of 29,775 was 15 per cent ahead of a year ago. The

jury total of 5,000 was up seven per cent. And at 201,

the death toll was up in a year ago.

Transportation department said, 30 per cent of the 29,775

accidents were reported by 13,000 drivers. The

## Many Activities Feature Life In Buffalo Coulee District

The annual variety show was presented to a "packed to capacity" crowd on Friday night when the 1990-91 season of the *Manlyville Vermont Program* was celebrated. The program was enjoyed by all. The program was called a variety, with a wide range of acts, from acrobats and trampolinists to musical acts. The variety of acts was so wide that it was difficult to choose selection still going on.

**THE FIRST CHRISTMAS**

Now when Jesus was born in Bethlehem of Judaea in the days of Herod the king, behold there came wise men from the east to Jerusalem, saying, Where is he that is born King of the Jews? for we have seen his star in the east, and are come to worship him.

When Herod the king had heard these things, he was troubled, and all Jerusalem with him: And when he had gathered all the chief priests and scribes of the people together, he demanded of them where Christ should be born.

And he sent them to Bethlehem, and when they were come thither, and had searched, they found Mary the mother and the babe, and the young child; and when they had seen him, they fell down before him, and worshipped him: and when they had heard him say unto them, Behold, I bring you good tidings, as it was said by the Lord.

When they heard the king's reply, they departed and went to their own country: but Herod sent forth and slew all the children of Bethlehem, and round about thereof, from two years of age and under, because he perceived that he was snared by the wise men.

And when Herod was dead, behold an angel of the Lord appeared to Joseph, saying, Arise, take the young child and his mother, and flee into Egypt, and be thou there until I bring word unto thee: for Herod will seek the young child, to slay him.

And he arose, and took the young child and his mother, and fled into Egypt, and was there until the death of Herod: that it might be fulfilled which was spoken by the Lord, saying, I have called my son out of Egypt.

And when Herod was dead, Joseph came with the child into the land of Israel: but when he heard that Archelaus reigned in Judaea, he was afraid to go thither: and when he had been told that Archelaus was reigning in Judaea, he was afraid to go thither: and when he had been told that Archelaus was reigning in Judaea, he was afraid to go thither.

## Mrazek-Taylor Pledge Vows At Vermilion Church

The Vermilion Holy Name Roman Catholic church was the scene of a pretty wedding Sunday afternoon, Dec. 16, when Michael Taylor, only daughter of Mr. Louis Taylor, became the bride of Michael Mrazek, son of Mr. Mrazek, of Vermilion, Alberta.

The bride, wearing a gown of white tulle, was escorted by her father, Mr. Louis Taylor, to the altar. The groom, wearing a tuxedo, was escorted by his best man, Mr. Mrazek, of Vermilion, Alberta.

The ceremony was performed by Father Kowalski, who read the wedding vows and pronounced the couple man and wife.

The bride received a bouquet of white roses and a corsage of white flowers. The groom received a boutonniere of white flowers.

The wedding party included the bride's mother, Mrs. Taylor, and the groom's mother, Mrs. Mrazek. The ceremony was attended by many guests.

## VERMILION VALLEY LODGE NEWS

The main, Mrs. Torrance, on behalf of the guests of the lodge, wishes to sincerely thank Mrs. V. Jones, Mrs. Hancock and the C.A.T. girls of Vermilion, for the Christmas party given for the lodge members and their families.

The party was very enjoyable and the guests were very much pleased with the entertainment given by the girls.

The lodge members and their families were very much pleased with the party and the girls.

### THE NEW YEAR

Soon in your hands will be stamped a precious gift. Look at it closely. There is no price mark stamped on it. Guard it closely, but through your fingers it slips through the hand. Look often at its faultless beauty. Accept it as it is offered from the heart of the giver. Consider it the most treasured of possessions, for of all gifts it is by far the greatest.

It is the Gift of the New Year.

### NEW YEAR GREETINGS

The editor and staff cannot the very best wishes for the New Year to readers of The Standard, the advertisers, the regular correspondents, and to the many others who contribute to the news columns of the paper.

To the many firms and organizations who patronize our job work department, our sincere thanks and appreciation too. Without this valuable adjunct to the business it would be impossible to maintain the very high standard of news coverage and presentation. From this town-wide publicity every firm benefits.

The local newspaper comes closer to being a community enterprise than any other line of business, and to maintain this service in a community like Vermilion requires practically 100 per cent town-wide support.

The columns of The Standard are always open to record the activities of each and every one of the many associations and organizations of Vermilion and the surrounding villages and districts.

To report to our original theme: A Happy, Healthful and Prosperous 1963 to Everyone!

## Canadians "CARE"

If you're inclined to be cynical about Christmas, if you've doubted about what seems to be the growing "commercialization" of the Yuletide season, consider this:

Each day, over weeks before Christmas, 13,000 packages and envelopes are sent to happy people in 55 countries. Each of these gifts have the name and address of a man, woman or child in Canada or the U.S. who would otherwise be forgotten.
